Good articles in Wikipedia db67f5a0d1 A good article (GA) is a Wikipedia article that meets a core set of editorial standards, the good article criteria, passing through the good article nomination process successfully. They are well-written, contain factually accurate and verifiable information, are broad in coverage, neutral in point of view, stable, and illustrated, where possible, by relevant images with suitable copyright licenses. Good articles do not have to be as comprehensive as featured articles (FA), but they should not omit any major facets: a comparison of the criteria for good and featured articles describes further differences. db67f5a0d1

Science and technology in Iran In recent years, the growth in Iran's scientific output is reported to be the fastest in the world. Persians also prohibited the use of human anatomical dissection by Muslim medical practitioners for social and religious reasons Iran has made considerable advances in science and technology through education and training, despite international sanctions in almost all aspects of research during the past 30 years. of science had been lost. Iran's university population swelled from 100,000 in 1979 to 4. 7 million in 2016 db67f5a0d1
