International business involves cross-border transactions of goods and services between two or more countries. Transactions of economic resources include capital, skills, and people for the purpose of the international production of physical goods and services such as finance, banking, insurance, and construction. International business is also known as globalization. 55b0aa0735 The commercial activity that takes place in a financial centre may include banking, asset management, insurance, and provision of financial markets, with venues and supporting services for these activities. Participants can include financial intermediaries (such as banks and brokers), institutional investors (such as investment managers, pension funds, insurers, and hedge funds), and issuers (such as companies and governments). Trading activity often takes place on venues such as exchanges and involves clearing houses, although many transactions take place over-the-counter (OTC), directly between participants. Financial centres usually... 55b0aa0735

Supply chain management globalization and the proliferation of multinational companies, joint ventures, strategic alliances, and business partnerships, significant success factors In commerce, supply chain management (SCM) deals with a system of procurement (purchasing raw materials/components), operations management, logistics and marketing channels, through which raw materials can be developed into finished products and delivered to their end customers. A more narrow definition of supply chain management is the "design, planning, execution, control, and monitoring of supply chain activities with the objective of creating net value, building a competitive infrastructure, leveraging worldwide logistics, synchronising supply with demand and measuring performance globally". This can include the movement and storage of raw materials, work-in-process inventory, finished goods, and end to end order fulfilment from the point of origin to the point of consumption. Interconnected 55b0aa0735
