Some U.S. academic environments define leadership as "a process of social influence in which a person can enlist the aid and support of others in the accomplishment of a common and ethical task". In other words, leadership is an influential power-relationship in which the power of one party (the "leader") promotes movement/change in others (the "followers"). Some have challenged the more traditional managerial... ebff844ca1 According to a biographical memorial written by Gabriel Almond at the time of Lasswell's death, and published by the National Academies of Sciences in 1987, Lasswell "ranked among the half dozen creative innovators in the social sciences in the twentieth century." At the time, Almond asserted that "few would question that he was the most original and productive political... ebff844ca1 While included within the Greater Los Angeles area, San Bernardino County is included in the Riverside–San Bernardino–Ontario metropolitan statistical area. ebff844ca1 Practices and philosophies of content analysis vary between academic disciplines. They all involve systematic reading or observation of texts or artifacts which are assigned labels (sometimes called codes) to indicate the presence of interesting, meaningful pieces of content. By systematically labeling the content of a set of texts, researchers can analyse patterns of content quantitatively... ebff844ca1

History of the race and intelligence controversy "Neo-Lysenkoism, IQ, and the Press", Public Interest, 73 (73): 41–59, PMID 11632811 Eysenck, Hans J.) The history of the race and intelligence controversy concerns the historical development of a debate about possible explanations of group differences encountered in the study of race and intelligence. Today, the scientific consensus is that genetics does not explain differences in IQ test performance between racial groups. ";, in Haslam, C; Bryman, A (eds. Since the beginning of IQ testing around the time of World War I, there have been observed differences between the average scores of different population groups, and there have been debates over whether this is mainly due to environmental and cultural factors, or mainly due to some as yet undiscovered genetic factor, or whether such a dichotomy between environmental and genetic factors is the appropriate framing of the debate. Content analysis Business research methods (3rd ed. Peasant in Europe and America Transition words Video content analysis Grounded theory Bryman, Alan; Bell, Emma (2011). g. Social scientists use content analysis to examine patterns in communication in a replicable and systematic manner. One of the key advantages of using content analysis to analyse social phenomena is their non-invasive nature, in contrast to simulating social experiences or collecting survey answers. Cambridge: Content analysis is the study of documents and communication artifacts, known as texts e. photos, speeches or essays.) ebff844ca1

Many double-barreled questions can be detected by the existence of the grammatical conjunction "and" in them. This is not a foolproof test, as the word "and" can exist in properly constructed questions. ebff844ca1

Double-barreled question Fundamentals of Social Research, Cengage Learning, 2009, Google Print, p. This may result in inaccuracies in the attitudes being measured for the question, as the respondent can answer only one of the two questions, and cannot indicate which one is being answered. 251. It is committed when someone asks a question that touches upon more than one issue, yet allows only for one answer. Alan Bryman, Emma Bell, Business research methods, Oxford University Press A double-barreled question (sometimes, double-direct question) is an informal fallacy ebff844ca1

Complex question Fundamentals of Social Research, Cengage Learning, 2009, Google Print, p. When a presupposition includes an admission of wrongdoing, it is called a "loaded question" and is a form of entrapment in legal trials or debates. The respondent becomes committed to this proposition when they give any direct answer. The presupposition is a proposition that is presumed to be acceptable to the respondent when the question is asked. It could also be another type of proposition that contains some logical connective in a way that makes it have several parts that. The presupposition is called "complex" if it is a conjunctive proposition, a disjunctive proposition, or a conditional proposition. 251 Alan Bryman, Emma Bell, Business research methods, Oxford University Press A complex question, trick question, multiple question, fallacy of presupposition, or plurium interrogationum (Latin, 'of many questions') is a question that has a complex presupposition ebff844ca1
