Value-form It refers to the social form of tradeable things as units of value, which contrast with their tangible features, as objects which can satisfy human needs and wants or serve a useful purpose. Marx intended to correct errors made by the classical economists in their definitions of exchange, value, money and capital, by showing more precisely how these economic categories evolved out of the development of trading relations themselves. The physical appearance or the price tag of a traded object may be directly observable, but the meaning of its social form (as an object of value) is not. He claims that "every school of thought from the Neoclassicals to the The value-form or form of value ("Wertform" in German) is an important concept in Karl Marx's critique of political economy, discussed in the first chapter of Capital, Volume 1. neo-classical or heterodox, must be consistent with the physical laws of thermodynamics 9146c565a9

This field encompasses many disparate schools of economic thought. Ancient Greek writers such as the philosopher Aristotle examined ideas about the art of wealth acquisition, and questioned whether property is best left in private or public hands. In the Middle Ages, Thomas Aquinas argued that it was a moral obligation of businesses to sell goods at a just price.
