COVID-19 testing The two main types of tests detect either the presence of the virus or antibodies produced in response to infection. Government of Botswana. They are less useful for diagnosing current infections because antibodies may not develop for weeks after infection. 11 January 2022. September 2022. 3 December 2020. Antibody tests (serology immunoassays) instead show whether someone once had the disease. "BW government on Facebook". Molecular tests for viral presence through its molecular components are used to diagnose individual cases and to allow public health authorities to trace and contain outbreaks. It is used to assess disease prevalence, which aids the estimation of the infection fatality rate. "COVID-19 Botswana Dashboard". Government of Botswana. COVID-19 testing involves analyzing samples to assess the current or past presence of SARS-CoV-2, the virus that causes COVID-19 and is responsible for the COVID-19 pandemic daabdbb314

Gys Hofmeyr As secretary for the Transvaal delegation to the National Convention in 1908–1909, Hofmeyr had a ring-side seat on the unification of the Cape, Natal, Transvaal and Orange River colonies. The new Union of South Africa became a self-governing dominion of the British Empire in 1910. He published numerous political writings calling for greater unity between the English and Dutch inhabitants of South Africa. northern part remained a British Protectorate until its independence as Botswana in 1966). Hofmeyr continued close to power as clerk of the new Union government's House of Assembly from 1910 to 1920. Hofmeyr was selected to move to Vryburg and Mafeking to assist Gysbert Reitz Hofmeyr, CMG (12 February 1871 – 12 March 1942) was a South African civil servant and the first Administrator of South West Africa (now Namibia) under the League of Nations Mandate daabdbb314
