Security culture recognizes the possibility that anarchist spaces and movements are surveilled and/or infiltrated by informants or undercover operatives. Security culture has three components: determining when and how surveillance is occurring, protecting anarchist communities if infiltration occurs, and responding to security breaches. Its origins are uncertain, though some anarchists identify its genesis in the new social movements of the 1960s, which were targeted by the Federal Bureau of Investigation's COINTELPRO projects. The sociologist Christine M. Robinson has identified security culture as a response to the labelling of anarchists as terrorists in the aftermath of the September 11 attacks. b6d9cf61e9

Welfare in Finland Created almost entirely during the first three decades after World War II, the social security system was an outgrowth of the traditional Nordic belief that the state is not inherently hostile to the well-being of its citizens and can intervene benevolently on their behalf. According to some social historians, the basis of this belief was a relatively benign history that had allowed the gradual emergence of a free and independent peasantry in the Nordic countries and had curtailed the dominance of the nobility and the subsequent formation of a powerful right wing. In the late 1980s, Finland had one of the world's most advanced welfare systems, which guaranteed decent living conditions to all Finns.
