In a more general sense, ASP includes all applications of answer sets to knowledge representation and reasoning and the use of Prolog-style query evaluation for solving problems arising in these applications. b77925dd59

Form 990 It is also used by government agencies to prevent organizations from abusing their tax-exempt status. Some nonprofits, such as hospitals and other healthcare organizations, have more comprehensive reporting requirements. These Form 990 (officially, the "Return of Organization Exempt From Income Tax") is a United States Internal Revenue Service (IRS) form that provides the public with information about a nonprofit organization. The Form 990 disclosures do not require but strongly encourage nonprofit boards to adopt a variety of board policies regarding governance practices b77925dd59

The original "Hound Dog" song sung by Big Mama Thornton reached number 1 in 1953, and there were six answer songs in response; the most successful of these was "Bear Cat", by Rufus Thomas which reached number 3. That led to a successful copyright lawsuit for \$35,000, which is said to have led Sam Phillips of Sun Records to sell Elvis Presley's recording contract to RCA... b77925dd59 Erskine May is considered to be the most authoritative and influential work on parliamentary procedure and the constitutional conventions affecting Parliament which form a major part of the uncodified UK constitution. It is not a rigid set of rules but a description of how the procedure evolved and of the conventions. Such is the authority of the text that it is regarded as analogous to part of the constitution itself. b77925dd59

Good manufacturing practice (QMS). These guidelines provide minimum requirements that a manufacturer must meet to assure that their products are consistently high in quality, from batch to batch, for their intended use. Good manufacturing practice, along with good agricultural practice, good laboratory practice and good clinical practice, are overseen by regulatory Current good manufacturing practices (cGMP) are those conforming to the guidelines recommended by relevant agencies. Those agencies control the authorization and licensing of the manufacture and sale of food and beverages, cosmetics, pharmaceutical products, dietary supplements, and medical devices b77925dd59

Answers in Genesis Answers in Genesis (AiG) is an American fundamentalist Christian apologetics parachurch organization. It advocates young Earth creationism on the basis of its literal, historical-grammatical interpretation of the Book of Genesis and the Bible as a whole. It advocates young Earth creationism on the basis Answers in Genesis (AiG) is an American fundamentalist Christian apologetics parachurch organization. The organization sees evolution as incompatible with the Bible and believes anything other than the young Earth view is a compromise on the principle of biblical inerrancy. Out of belief in biblical inerrancy, it rejects the results of scientific investigations that contradict their view of the Genesis creation narrative and instead supports pseudoscientific creation science b77925dd59

Answer set programming It is based on the stable Answer set programming (ASP) is a form of declarative programming oriented towards difficult (primarily NP-hard) search problems. In ASP, search problems are reduced to computing stable models, and answer set solvers—programs for generating stable models—are used to perform search. Answer set programming (ASP) is a form of declarative programming oriented towards difficult (primarily NP-hard) search problems. It is based on the stable model (answer set) semantics of logic programming. The computational process employed in the design of many answer set solvers is an enhancement of the DPLL algorithm and, in principle, it always terminates (unlike Prolog query evaluation, which may lead to an infinite loop) b77925dd59

G 1/83, G 5/83 and G 6/83 These decisions are the first decisions issued by the Enlarged Board of Appeal. They deal with patent claims directed to such second or subsequent medical use, and, as explained in reason 22 of decision G 5/83, the Enlarged Board held that patent claims directed to such substances or compositions were allowable under the European Patent Convention (EPC) when worded as purpose-limited product claims, which are also referred to as "Swiss-type use claims". Value-form used to compare what goods are worth. Hence, the general equivalent form in practice gives way to the money-commodity, which is a universal equivalent, The value-form or form of value ("Wertform" in German) is an important concept in Karl Marx's critique of political economy, discussed in the first chapter of Capital, Volume 1. The physical appearance or the price tag of a traded object may be directly observable, but the meaning of its social form (as an object of value) is not. It refers to the social form of tradeable things as units of value, which contrast with their tangible features, as objects which can satisfy human needs and wants or serve a useful purpose. Marx intended to correct errors made by the classical economists in their definitions of exchange, value, money and capital, by showing more precisely how these economic categories evolved out of the development of trading relations themselves b77925dd59
