Collaboration Fifth and sixth graders in the community work with the teacher installing a classroom window; the installation becomes a class project in which the Collaboration (from Latin com- "with" + laborare "to labor", "to work") is the process of two or more people, entities or organizations working together to complete a task or achieve a goal. A definition that takes technology into account is "working together to create value while sharing virtual or physical space. " Collaboration is similar to cooperation. The form of leadership can be social within a decentralized and egalitarian group. Teams that work collaboratively often access greater resources, recognition and rewards when facing competition for finite resources. made
