Ft Guide To Banking The Ft Guides

The purpose of the FT 30 was to give a selection of stocks, which capture the range and essence of UK companies. The index was devised in 1935 by Maurice Green and Otto Clarke of the Financial News and was termed the "Financial News 30-share index" until that paper merged with the Financial Times in 1945. The companies listed in the index are made up of those in the industrial and commercial sectors. It excludes government stocks, and used to exclude financial sector (banks, insurance, etc.). 97e23e92dd

In 1994 Bank Markazi (the central bank) authorised the creation of private credit institutions, and in 1998 authorised foreign banks (many of whom had already established representative offices in Tehran) to offer full banking services in Iran's free-trade zones. The central bank sought to follow this with the recapitalisation and partial privatisation of the existing commercial banks, seeking to liberalise the sector and encourage the development of a more competitive and efficient industry. State-owned banks are considered by many to be poorly functioning as financial intermediaries. Extensive regulations are in place, including controls... 97e23e92dd == History == 97e23e92dd

Other areas of ethical consumerism, such as fair trade labelling, have comprehensive codes and regulations which must be adhered to in order to be certified. Ethical banking has not developed to this point; because of this it is difficult to create a concrete definition that distinguishes ethical banks from conventional banks. Ethical banks are subject to the same regulatory authorities and must comply with the same rules as traditional banks. While there are differences between ethical banks, they do share a desire to uphold principles in the projects they finance, the most frequent including: transparency and social and/or environmental values. Ethical banks sometimes work with narrower profit margins than traditional ones, and therefore they may have few offices... 97e23e92dd The building was designed by Harry S Fairhurst in a neo-classical style and displays some Art Deco and Edwardian Baroque motifs, such as square windows and roof sculptures which were prevalent during the 1920s.
