Social mobility Markers for social mobility such as education and class, are used to predict, discuss and learn more about an individual or a group's mobility in society. the same datasets, and partly due to questions regarding the analytical sample and the treatment of missing data. This movement occurs between layers or tiers in an open system of social stratification. The movement can be in a downward or upward direction. UK Prime Minister Gordon Brown has famously Social mobility is the movement of individuals, families, households or other categories of people within or between social strata in a society. It is a change in social status relative to one's current social location within a given society. Open stratification systems are those in which at least some value is given to achieved status characteristics in a society

More than 968 million people out of a population of 1.4 billion people were eligible to vote, equivalent to 70 percent of the total population. 642 million voters participated in the election; 312 million of these were women, the highest ever participation by women... Gender equality is increasingly framed as being central to the realisation of both modernisation and economic efficiency, and its achievement presented as a key to good governance. As a result, the New Zealand government has implemented institutional mechanisms to promote the advancement of gender equality. In 2016, New Zealand was ranked 9th out of a total of 144 countries in the Global Gender Gap Report which ranks countries in terms of gender equality in the population under four heads: economic participation, health...
