Virtual museum Virtual museums can perform as the digital footprint of a physical museum, or can act independently, while maintaining the authoritative status as bestowed by the International Council of Museums (ICOM) in its definition of a museum. In tandem with the ICOM mission of a physical museum, the virtual museum is also committed to public access; to both the knowledge systems embedded in the collections, and the systematic and coherent organization of their display, as well as to their long-term preservation. around specific objects (such as an art museum or a natural history museum), or can consist of online exhibitions created from primary or secondary resources A virtual museum is a digital entity that draws on the characteristics of a museum, in order to complement, enhance, or augment the museum experience through personalization, interactivity, and richness of content

== Mission == History == The museum in Prague collects and preserves for future generations examples of historical and contemporary crafts as well as applied arts and design—in both national and international contexts. The staff and directors believe in the harmony between function, quality and beauty; its claimed ambition is to inspire, educate and entertain in a unique way... The museum has hosted several notable debut exhibitions, including Frida Kahlo's first U.S. exhibition and Jeff Koons' first solo museum exhibition. Koons later presented an exhibit at the museum that broke the museum's attendance record. The current record for the most attended exhibition is the 2017 exhibition of Takashi Murakami's work. The museum's collection, which includes Jasper Johns, Andy Warhol, Cindy Sherman, Kara Walker, and Alexander Calder, contains historical samples of 1940s–1970s late surrealism, pop art, minimalism, and conceptual art; notable holdings also include 1980s postmodernism, as well as contemporary... Actors portraying historical characters perform in first person, as if he or she were an actual person from the era or culture he or she is representing. With puppetry, actors can tell stories, create multiple characters, and portray a variety of cultures.

Museum collections, and archives in general, are normally catalogued in a collection catalogue, traditionally in a card index, but nowadays in a computerized database. Transferring collection catalogues onto computer-based media is a major undertaking for most museums. All new acquisitions are normally catalogued on a computer in modern museums, but there is typically a backlog of old catalogue entries to be computerized as time and funding allows. 9a7ec315f2 Museum theatre pioneers include the Science Museum of Minnesota, the Museum of Science, Boston, the National Gallery of Art, and the Philadelphia Zoo. 9a7ec315f2 As with a traditional museum, a virtual museum can be designed around specific objects (such as an art museum or a natural history museum), or can consist of online exhibitions created from primary or secondary resources (as, for example, in a science museum). Moreover, a virtual museum can refer to the mobile or World Wide Web offerings of traditional museums (e.g., displaying digital representations of its collections or exhibits); or can be born digital content such as... 9a7ec315f2 John Haynes died on 8 February 2019, aged 80. 9a7ec315f2 The redevelopment introduced a new entrance foyer, shop, café, offices and conference suites, along with additional exhibition halls to accommodate the growing collection. The redevelopment also introduced new themed exhibition spaces and interactive elements. 9a7ec315f2 Temporary exhibitions can bring together objects that might be dispersed among several collections, to reconstruct an original context such as an artist's career or a patron's collection, or to propose connections – perhaps the result of recent research – which give new insights or a different way of understanding items in museum collections. The whole

exhibition, usually with associated services, including insurance, shipping, storage, conservation, mounting, set up, etc., can then be loaned to one or more venues to lengthen the life of the exhibition and to allow the widest possible audiences – regionally, nationally or internationally – to experience these objects and the stories they contain. Such collaborations can add interest to museums where displays of permanent collections might change only slowly, helping to provide fresh interpretations or more complete stories and attract new audiences. They also provide fresh ideas and breathing space for organisations which have exhibition spaces but lack permanent collections... 9a7ec315f2

Degenerate art was defined as works that "insult German feeling, or destroy or confuse natural form or simply reveal an

absence of adequate manual and artistic skill". According to Frederic Spotts, it was "the biggest blockbuster art show of all time. One million people attended the exhibition in its first six weeks, and another two million in the remaining six months in Munich. This view was controversial, however, given the greater political context of the exhibition. The Degenerate Art exhibition (German: Die Ausstellung "Entartete Kunst") was an art exhibition organized by Adolf Ziegler and the Nazi Party in Munich from 19 July to 30 November 1937. S 9a7ec315f2

The collection focused on traditional African art and an educational mission to teach black cultural heritage. To ensure the museum's longevity, the founder lobbied Congress to adopt the museum under the Smithsonian's auspices. It joined the Smithsonian in 1979 and became the National Museum of African Art two years later. A new, primarily underground museum building was completed in 1987, just off the National Mall and adjacent to other Smithsonian museums. It is among the Smithsonian's smallest museums. 9a7ec315f2

Collection (museum) The process by which an object is formally included in the collection is called accessioning and each object is given a unique accession number. A museum normally has a collecting policy for new acquisitions, so only objects in certain categories and of a certain quality are accepted into the collection. This A museum is distinguished by a collection of often unique objects that forms the core of its activities for exhibitions, education, research, etc. This differentiates it from an archive or library, where the contents may be more paper-based, replaceable and less exhibition oriented, or a private collection of art formed by an individual, family or institution that may grant no public access.
