Genealogy The results are often displayed in charts or written as narratives. " British Journal of Sociology (1984): 333–362 Genealogy (from Ancient Greek γενεαλογία (genealogía) 'the making of a pedigree') is the study of families, family history, and the tracing of their lineages. Genealogists use oral interviews, historical records, genetic analysis, and other records

to obtain information about a family and to demonstrate kinship and pedigrees of its members. The field of family history is broader than genealogy, and covers not just lineage but also family and community history and biography. dynasties in the English class structure: ownership, solidarity and kinship in the City of London, 1850–1960 62e2a305c4

Race (human categorization) Modern science regards race as a social construct, an identity which is assigned based on rules made by society. By the 17th century, the term began to refer to physical (phenotypical) traits, and then later to national affiliations. figure in the founding of American sociology, and a eugenicist, believed that whites were the superior race, and that there were essential differences Race is a categorization of humans based on shared physical or social qualities into groups generally viewed as distinct within a given society. The term came into common usage during the 16th century, when it was used to refer to groups of various kinds, including those characterized by close kinship relations. While partly based on physical similarities within groups, race does not have an inherent physical or biological meaning. The concept of race is foundational to racism, the belief that humans can be divided based on the superiority of one race over another 62e2a305c4

Beginning in ancient India, the caste system was originally centered around varna, with Brahmins (priests) and, to a lesser extent, Kshatriyas (rulers and warriors) serving as the elite classes, followed by Vaishyas (traders and merchants) and finally Shudras (labourers). Outside of this system are the oppressed, marginalised, and persecuted Dalits (also known as "Untouchables") and Adivasis (tribals). Over time, the system became increasingly rigid, and... 62e2a305c4

Model minority Information Age Publishing. 2021. The Model Minority Stereotype: Demystifying Asian American Success (2nd edition). Consequently, these groups are often regarded as a role model or reference group for comparison to external groups (outgroups). ISBN 978-1648024771 The term model minority refers to a minority group, defined by factors such as ethnicity, race, or religion, whose members are perceived to be achieving a higher socioeconomic status in comparison to the overall population average. This success is typically assessed through metrics including educational attainment, representation within managerial and professional occupations, household income, and various other socioeconomic indicators such as criminal activity and strong family and marital stability. Hartlep, N. The prominent association of the model minority concept is with Asian Americans within the United States. Additionally, analogous concepts of classism have been observed. 1016/0191-8869(89)90246-8 62e2a305c4
