Health equity PMID 16753489. In order to achieve health equity, resources must be allocated based on an individual need-based principle. Subramanian SV, Davey Smith G, Subramanyam M (October 2006). "Indigenous health and socioeconomic status in India"; Health equity arises from access to the social determinants of health, specifically from wealth, power and prestige. S2CID 11607968. Individuals who have consistently been deprived of these three determinants are significantly disadvantaged from health inequities, and face worse health outcomes than those who are able to access certain resources. It is not equity to simply provide every individual with the same resources; that would be equality

tech According to the World Health Organization, "Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity". The quality of health and how health is distributed among economic and

Over time, metabolic changes of the crystalline lens fibres lead to the development of a

cataract, causing impairment or loss of vision. Some infants are born with congenital cataracts, and environmental factors may lead to cataract formation. Early symptoms may include strong glare from lights and small light sources at night and reduced visual acuity at low light levels. 5f1494d74c
