Wikipedia:Featured article candidates/Featured log/May 2010 This is a very interesting episode, and Syme does a wonderful job describing how. added a statement to the article using Syme which now reflects this idea 7faafe58ac

A good article (GA) is a Wikipedia article that meets a core set of editorial standards, the good article criteria, passing through the good article nomination process successfully. They are well-written, contain factually accurate and verifiable information, are broad in coverage, neutral in point of view, stable, and illustrated, where possible, by relevant images with suitable copyright licenses. Good articles do not have to be as comprehensive as featured articles (FA), but they should not omit any major facets: a comparison of the criteria for good and featured articles describes further differences. 7faafe58ac
