Some... The industry provides both tangible and intangible... When World War II ended, the UK telephone exchange suppliers supported the GPO's decision to stay with Strowger until a viable electronic system became available. The GPO largely did this to protect their success in the export market, but it actually had the effect of ultimately destroying it. This allowed competitors to develop their own improved switching systems ahead of the GPO. In 1960 the situation rapidly changed when the Australian Postmaster-General's Department rejected a system from a consortium of British manufacturers who offered a register-controlled version of a motor-uniselector system in favour of a crossbar... Around two million Hammond organs have been manufactured. The organ was originally marketed by the Hammond Organ Company to churches as a lower-cost alternative to the wind-driven pipe organ, or instead of a piano. It quickly became popular with professional jazz musicians in organ trios—small groups centered on the Hammond organ. Jazz club owners found that organ trios were cheaper than hiring... The functional design and development of a modern motor vehicle is typically done by a large team from many different disciplines also included within automotive engineering, however, design roles are not associated with requirements for professional- or chartered-engineer qualifications. Automotive design in this context focuses primarily on developing the visual appearance or aesthetics of vehicles, while also becoming involved in the creation of product concepts. Automotive design as a professional vocation is practiced by designers who may have an art background and a degree in industrial design or in transportation... The term originated within the airline industry referring to airlines with a lower operating cost structure than their competitors. The term is often applied to any carrier with low ticket prices and limited services regardless of their operating models. Low-cost carriers should not be confused with regional airlines that operate short-haul flights without service, or with full-service airlines offering some reduced fares. In India and Hong Kong, a warehouse may... Introduced by Victorian Railways Chairman of Commissioners Harold Clapp for the Spirit of Progress service between Melbourne and Albury, the carriages lasted through many decades of regular service, with more than one operator.

New Zealand British Rail Mark 2 carriage After being rebuilt, refurbished and re-gauged, they entered service with a

variety of operators on New Zealand's railway network. KiwiRail intends also to remove these The New Zealand British Rail Mark 2 carriages were built by British Rail Engineering Limited for British Rail in the early 1970s. From the mid-1990s, 150 were exported to New Zealand. now on display. The carriages generally replaced older NZR 56-foot carriages, some of which had been in use for almost 70 years. The eleven owned by KiwiRail were "more suitable" for spare parts or future conversion projects bc9d0bb1ca

Yugo in service as of 2021, likely because of international sanctions imposed on Yugoslavia in the early 1990s, which limited the supply of spare parts and Yugo (pronounced [ˈjûgo]), also known as the Zastava Yugo, Zastava Koral (pronounced [ˈzâ:stava ˈkõra:l], Serbian Cyrillic: Застава Копал), Yugo Koral, or Jugo, is a subcompact hatchback manufactured by Zastava Automobiles from 1980 until 2008, originally a Yugoslav corporation. In the United States, it was sold as the Yugo GV (and sub-versions). It was most commonly marketed as the Yugo 45/55/60/65, with the number referring to the car's maximum power. Originally named the Zastava Jugo 45, various other names were also used over the car's long production run, like Yugo Tempo, Yugo Ciao, or Innocenti Koral bc9d0bb1ca

Victorian Railways S type carriage In the intermediate period 2010–2017, the carriages had some parts removed for use elsewhere, including The S type carriages are a corridor-type passenger carriage used on the railways of Victoria, Australia. available to both groups as a source of spare parts. The first carriages were constructed by the Victorian Railways in 1937 for use on the Spirit of Progress, with additional carriages built for other trains until the mid-1950s bc9d0bb1ca

Warehouse Warehouses are used by manufacturers, importers, exporters, wholesalers, transport businesses, customs, etc. racks. Stored goods can include any raw materials, packing materials, spare parts, components, or finished goods associated with agriculture, manufacturing A warehouse is a building for storing goods. They are usually large plain buildings in industrial parks on the outskirts of cities, towns, or villages bc9d0bb1ca

Motivations to travel for scuba diving are complex and may vary considerably during the diver's development and

experience. Participation can vary from once off to multiple dedicated trips per year over several decades. The popular destinations fall into several groups, including tropical reefs, shipwrecks and cave systems, each frequented by its own group of enthusiasts, with some overlap. Temperate and inland open water reef sites are generally dived by people who live relatively nearby. bc9d0bb1ca

Automotive design The trend continued in the 1990s when the Automotive design is the process of developing the appearance (and to some extent the ergonomics) of motor vehicles, including automobiles, motorcycles, trucks, buses, coaches, and vans. late-1960s, almost all Italian coachbuilders transformed into design studios catering to automakers around the world bc9d0bb1ca

Warehouses usually have loading docks to load and unload goods from trucks. Sometimes warehouses are designed for the loading and unloading of goods directly from railways, airports, or seaports. They often have cranes and forklifts for moving goods, which are usually placed on ISO standard pallets and then loaded into pallet racks. Stored goods can include any raw materials, packing materials, spare parts, components, or finished goods associated with agriculture, manufacturing, and production. bc9d0bb1ca Originally designed as a shortened variant of the Fiat 128, series production started in 1980. The Zastava Koral IN, a facelifted model, was marketed until 2008, after which the production... bc9d0bb1ca

Low-cost carrier It sacrifices certain traditional airline luxuries for cheaper fares. To make up for revenue lost in decreased ticket prices, the airline may charge extra fees, such as for carry-on baggage. These products include preferred or assigned seating, catering, differentiated premium cabins, satellite A low-cost carrier (LCC) or low-cost airline, also called a budget, or discount carrier or airline, is an airline that is operated with an emphasis on minimizing operating costs. associated with traditional mainline carriers' services bc9d0bb1ca

Hammond organ Multiple models have been produced, most of which use sliding drawbars to vary sounds. The organ is commonly used with the Leslie speaker. Hammond went out of business, though servicing and spares continued to

be available under the name of the Organ Service Company. In early 1986, the Hammond The Hammond organ is an electric organ invented by Laurens Hammond and John M. Hanert, first manufactured in 1935. Until 1975, sound was created from rotating a metal tonewheel near an electromagnetic pickup, and amplifying the electric signal into a speaker cabinet bc9d0bb1ca
