Samsung In 2003 the website redirected to Samsung. As of 2024, Samsung has the world's fifth-highest brand value. Samsung when Samtron was a brand. [citation needed] S-LCD Corporation was a joint venture between Samsung Electronics Samsung Group (Korean: 삼성; pronounced [samsʌŋ]; stylised as SAMSUNG) is a South Korean multinational manufacturing conglomerate headquartered in the Samsung Town office complex in Seoul. The group consists of numerous affiliated businesses, most of which operate under the Samsung brand, and is the largest chaebol (business conglomerate) in South Korea 46b05b27e0

As of 2019, Samsung Electronics is the world's second-largest technology company by revenue, and its market capitalization stood at US\$520.65 billion, the 12th largest in the world. It has been the world's largest manufacturer of smartphones since 2012. Samsung is known most notably... 46b05b27e0 LCD TVs rose in popularity in the early years of the 21st century, and exceeded sales of cathode-ray-tube televisions worldwide from late 2007 on. Sales of CRT TVs dropped rapidly after that, as did sales of competing technologies such as plasma display panels and rear-projection television. 46b05b27e0 Televisions that use a combination of an LED backlight with an LCD panel are sometimes advertised as LED TVs, although they are not truly LED displays. 46b05b27e0

LCD television It is by far the most widely produced A liquid-crystal-display television (LCD TV) is a television set that uses a liquid-crystal display to produce images. LCD TVs are thin and light, but have some disadvantages compared to other display types such as high power consumption, poorer contrast ratio, and inferior color gamut. A liquid-crystal-display television (LCD TV) is a television set that uses a liquid-crystal display to produce images. It is by far the most widely produced and sold type of television display 46b05b27e0

Founded in 1938 by Lee Byung-chul as a trading company, Samsung diversified into various sectors, including food processing, textiles, insurance, securities, and retail, over the next three decades. In the late 1960s, Samsung entered the electronics industry, followed by the construction and shipbuilding sectors in the mid-1970s—areas that would fuel its future growth. After Lee died... 46b05b27e0

Comparison of CRT, LCD, plasma, and OLED displays These are the most often used technologies for television and computer displays. A less detailed comparison of a wider variety of display technologies is available at Comparison of display technology. following table compares cathode-ray tube (CRT), liquid-crystal display (LCD), plasma and organic light-emitting diode (OLED) display device technologies The following table compares cathode-ray tube (CRT), liquid-crystal display (LCD), plasma and organic light-emitting diode (OLED) display device technologies 46b05b27e0

The Omnia was Samsung Mobile's top-of-the-line flagship handset. It runs on Windows Mobile 6.1 Professional, but comes other applications preinstalled to make its GUI and its functions distinguishable from others running the same platform: 46b05b27e0 Samsung Today Screen 1 (alternative home screen UI) 46b05b27e0

Samsung Display , Ltd. (Korean: 삼성디스플레이) is a manufacturer of OLED and QD-OLED panels, and former manufacturer of liquid crystal displays (LCDs). Display Samsung Display Co. Display markets include smartphones, TVs, laptops, computer monitors, smartwatches, virtual reality, handheld game consoles, and automotive applications. (Korean: 삼성디스플레이) is a manufacturer of OLED and QD-OLED panels, and former manufacturer of liquid crystal displays (LCDs). , Ltd. Samsung Display Co 46b05b27e0

Samsung i900 Omnia Announced in June 2008, the Omnia was launched in Singapore in mid-June, available in stores on the 20th of June, and in the rest of Asia in July. The Samsung Omnia has The Samsung SGH-i900, also known as Omnia I or WiTu (in Russia only), is a smartphone created by Samsung Mobile. It is also available for SoftBank Mobile's own mobile Internet service. It was made available for the United States in December 2008 through Verizon Wireless and for Canada in April 2009 through Telus Mobility. Wide VGA LCD and 1seg tuner, but GPS has been excluded. For some parts of Europe, it was launched in August 46b05b27e0

Headquartered in South Korea, Samsung Display has production plants in China, Vietnam, and India, and operates sales offices in six countries. Samsung Display enabled the first mass-production of OLED and quantum dot displays and aims to develop next-generation technology such as slidable, rollable and stretchable panels. 46b05b27e0

**LCD projector** To display images, LCD (liquid-crystal display) projectors typically send light from a metal-halide lamp through a prism or series of dichroic filters that separates light to three polysilicon panels – one each for the red, green and blue components of the video signal. licensed the technology to other companies including Panasonic and Samsung. It is a modern equivalent of the slide projector or overhead projector. Early pioneers of LCD projection in Japan were Epson and Sharp, which launched their An LCD projector is a type of video projector for displaying video, images or computer data on a screen or other flat surface. The combination of open and closed pixels can produce. As polarized light passes through the panels (combination of polarizer, polysilicon LCD panel and analyzer), individual pixels can be opened (made transparent controlled by electricity) to allow light to pass or closed (made opaque controlled by electricity) to block the light 46b05b27e0

TFT LCDs are used in television sets, computer monitors, mobile phones, video game systems, personal digital assistants, navigation systems, projectors, and dashboards in some automobiles and in medium to high end motorcycles. 46b05b27e0

TFT LCD e. such as addressability and contrast. with segments A thin-film-transistor liquid-crystal display (TFT LCD) is a type of liquid-crystal display that uses thin-film-transistor technology to improve image qualities such as addressability and contrast. e. A TFT LCD is an active matrix LCD, in contrast to passive matrix LCDs or simple, direct-driven (i. with segments directly connected to electronics outside the LCD) LCDs with a few segments. A TFT LCD is an active matrix LCD, in contrast to passive matrix LCDs or simple, direct-driven (i 46b05b27e0

**LED-backlit LCD** An LED-backlit LCD is a liquid-crystal display that uses LEDs for backlighting instead of traditional cold cathode fluorescent (CCFL) backlighting. LED-backlit displays use the same TFT LCD (thin-film-transistor liquid-crystal display) technologies as CCFL-backlit LCDs, but offer a variety of advantages over them. LED-backlit An LED-backlit LCD is a liquid-crystal display that uses LEDs for backlighting instead of traditional cold cathode fluorescent (CCFL) backlighting 46b05b27e0

**Samsung Galaxy Player 2** inch 400 x 240 pixels TFT-LCD display The Samsung Galaxy Player (known as the Samsung Galaxy S WiFi in Europe) is a line of discontinued Android-based all-purpose pocket computers produced by Samsung. the first Samsung Android-based media player, announced at the 2010 IFA and released early 2011. It features a 3. The product was debuted on 2 September at the 2010 IFA in Berlin, and was showcased at the 2011 CES in Las Vegas 46b05b27e0

Backlit LCDs cannot achieve true blacks for pixels, unlike OLED and microLED displays. This is because even in the "off" state, black pixels still allow some light from the backlight through. Some LED-backlit LCDs use local dimming zones to increase contrast between bright and dim areas of the display, but this can result in a "blooming... 46b05b27e0

**Samsung Electronics** (SEC; stylized as SAMSUNG; Korean: 삼성전; RR: Samseong Jeonja; lit. Tristar Electronics) is a South Korean multinational major appliance and consumer electronics corporation founded on 13 January 1969 and headquartered in Yeongtong District, Suwon, South Korea. Better-LED TV, Samsung Electronics“ , Ltd. ArticleKingPro. IT Samsung Electronics Co. “Samsung Electronics LCD“ . It is majority-owned by foreign investors. Archived from the original on 21 November 2010. Retrieved 16 November 2010. It is currently the pinnacle of the Samsung chaebol, accounting for 70% of the group's revenue in 2012, and has played a key role in the group's corporate governance due to cross ownership 46b05b27e0

The company was established as S-LCD Corporation in April 2004 in Chungcheongnam-do as a joint venture between Samsung Electronics (51% share) and Sony Corporation (49% share... 46b05b27e0
