

Paddle To The Sea

In the early 19th century, paddle wheels were the predominant way of propulsion for steam-powered boats. In the late 19th century, paddle propulsion was largely superseded by the screw propeller and other marine propulsion systems that have a higher efficiency, especially in rough or open water.

A water park based on the book was opened in 2016 in the town of Nipigon, where the fictional journey begins. The film *Paddle to the Sea*, based on this book but omitting many details, was produced by the National Film Board of Canada in 1966, directed by Bill Mason. It was nominated for an Oscar.
