Active-pixel sensor , blood cells. CMOS sensors are used in digital camera technologies such as cell phone cameras, web cameras, most modern digital pocket cameras, most digital single-lens reflex cameras (DSLRs), mirrorless interchangeable-lens cameras (MILCs), and lensless imaging for, e. There are different types of APS, including the early NMOS APS and the now much more common complementary MOS (CMOS) APS, also known as the CMOS sensor. Noble in 1968, where each pixel sensor unit cell has a photodetector (typically a pinned photodiode) and one or more active transistors. W. Back-illuminated sensor Charge-coupled device Planar Fourier capture array Oversampled binary image sensor Category:Digital cameras with CMOS image sensor Fossum, An active-pixel sensor (APS) is an image sensor, which was invented by Peter J. In a metal-oxide-semiconductor (MOS) active-pixel sensor, MOS field-effect transistors (MOSFETs) are used as amplifiers. g c3e3d24a14

Straumann The group researches, develops, manufactures and supplies dental implants, instruments, biomaterials, CAD/CAM prosthetics, digital equipment,

software, and clear aligners for applications in replacement, restorative, orthodontic and preventative dentistry. [citation needed] Dental Wings headquarters and digital equipment production facility ClearCorrect Straumann Group is a Swiss company based in Basel (Switzerland) manufacturing dental implants and specialized in related technologies. gel for use in periodontal disease, is focused in Malmö c3e3d24a14

Roland Corporation In 2014, it was subject to a management buyout by its CEO, Junichi Miki, supported by Taiyo Pacific Partners. As of December 2022, it employed 2,783 people. In 2005, its headquarters relocated to Hamamatsu in Shizuoka Prefecture. It was founded by Ikutaro Kakehashi in Osaka in 1972. It has factories in Malaysia, Taiwan, Japan, and the United States. printer/cutters, 3D scanners, and dental milling devices, and engravers. In 2014, Roland DG officially entered the 3D printing market with the launch of its monoFab Roland Corporation (株式会社ローランド, Rōrando Kabushiki Kaisha) is a Japanese multinational manufacturer of electronic musical instruments, electronic equipment, and software c3e3d24a14

The Straumann Group also offers services to the dental profession worldwide, including training and education, which is provided in collaboration with the International Team for Implantology (ITI) and the Instituto Latino Americano de Pesquisa e Ensino Odontológico (ILAPEO). Its products and services are available in more than 100 countries through a broad network of distribution subsidiaries and partners. c3e3d24a14 Discovery of what would be considered a medical device by modern standards dates as far back as c. 7000 BC in Baluchistan where Neolithic dentists used flint-tipped drills and bowstrings. Study of archeology and Roman medical literature... c3e3d24a14 In 2008, the Yashica name reappeared on cameras produced by the Hong Kong-based MF Jebsen Group. In 2015, trademark rights were transferred to Yashica International Company Limited and appointed 100 Enterprises International Group Co. Limited as Yashica Global Sole Agent. c3e3d24a14

Dürr Dental Dürr Dental is a German company in the dental industry, which was founded as a precision-mechanics workshop in Stuttgart-Feuerbach in 1941 by the brothers Dürr Dental is a German company in the dental industry, which was founded as a precision-mechanics workshop in Stuttgart-Feuerbach in 1941 by the brothers Karl and Wilhelm Dürr, from Gechingen close to Calw in the Schwarzwald c3e3d24a14

Medical device The United States controls ≈40% of the global market followed A medical device is any device intended to be used for medical purposes. Further, as associated risk increases the potential benefit to the patient must also increase. As a general rule, as the associated risk of the device increases the amount of testing required to establish safety and efficacy also increases. Significant potential for hazards are inherent when using a device for medical purposes and thus medical devices must be proved safe and effective with reasonable assurance before regulating governments allow marketing of the device in their country. The global medical device market was estimated to be between \$220 and US\$250 billion in 2013 c3e3d24a14

Legend Holdings Its Chinese name however remains the same, 联想 (). "China Dental Industry Report, 2014-2018". 2015-03-02. Formed by the Chinese Academy of Sciences, Lenovo was originally Legend Computer, until the English name was changed in 2004. Market Watch. Retrieved 2015-03-11. "Lenovo's founder just made an unexpected move into the dental business" Legend Holdings Corporation (联想控股股份有限公司) is a Chinese investment holding company with interests in finance, real estate, and information technology, and the controlling shareholder of its better-known associate

company, the Lenovo Group c3e3d24a14
