Goal setting Locke and his colleagues, most notably, Gary Latham have shown that more specific and ambitious goals lead to more performance improvement. In doing so, the goal setter has established a desired future state which differs from their current state thus creating a mismatch which in turn spurs future actions. Goals are more deliberate than desires and momentary intentions. Though probably afflicted with poor self-efficacy in regard to rock climbing Goal setting involves the development of an action plan designed in order to motivate and guide a person or group toward a goal. Goal setting can be guided by goal-setting criteria (or rules) such as SMART criteria. Studies by Edwin A. Goal setting is a major component of personal-development and management literature. For example, take the case of an incompetent rock-climber. to reach a goal. Therefore, setting goals means that a person has committed thought, emotion, and behavior towards attaining the goal 3f9f8aceb1
