NAUI primarily serves as a recreational dive certification and membership organization, providing international diver standards and education programs. NAUI is headquartered in Riverview, Florida near Tampa with dive and member instructors, resorts, stores, service and training centers located around the world. cc4dc0208b

List of eponymous laws In others, the work or publications of the individual have led to the law being so named – as is the case with Moore's law. In some cases the person named has coined the law – such as Parkinson's law. that one can find an integer solution to an equation by using the Chinese remainder theorem to piece together solutions modulo powers of each different This list of eponymous laws provides links to articles on laws, principles, adages, and other succinct observations or predictions named after a person. Named laws range from significant scientific laws such as Newton's laws of motion, to humorous examples such as Murphy's law. There are also laws ascribed to individuals by others, such as Murphy's law; or given eponymous names despite the absence of the named person cc4dc0208b

Design science rational and systematic, approach to designing. , Loos, P. e. Buckminster Fuller who defined it as a systematic form of designing which he applied especially in innovative engineering design. , Frank, U. , Hess, T. The concept has been more broadly defined by the Design Science journal as “quantitative and qualitative research in the creation of artifacts and systems, and their embedding in our physical, virtual, psychological, economic, and social environment”. , Becker, J. org/design-research-in-information-systems Österle, H. and Design science refers to a scientific, i. An early concept of design science was introduced in 1957 by R. , Karagiannis, D. , Krcmar, H. , Oberweis, A. , Mertens, P cc4dc0208b

Computer security It focuses on protecting computer software, systems and networks from threats that can lead to unauthorized information disclosure, theft or damage to hardware, software, or data, as well as from the disruption or misdirection of the services they provide. are now common and well resourced but started with amateurs such as Markus Hess who hacked for the KGB, as recounted by Clifford Stoll in The Cuckoo's Egg Computer security (also cybersecurity, digital security, or information technology (IT) security) is a subdiscipline within the field of information security cc4dc0208b

The growing significance of computer insecurity reflects the increasing dependence on computer systems, the Internet, and evolving wireless network standards. This reliance has expanded with the proliferation of smart devices, including smartphones, televisions, and other components of the Internet of things (IoT). cc4dc0208b

Velocity power tools, practical work Standard diving dress, also known as hard-hat or copper hat equipment, deep sea diving suit, or heavy gear, is a type of diving suit that was formerly used for all relatively deep underwater work that required more than breath-hold duration, which included marine salvage, civil engineering, pearl shell diving and other commercial diving work, and similar naval diving applications. Standard diving dress has largely been superseded by lighter and more comfortable equipment cc4dc0208b

Heliox has been used medically since the 1930s, and although the medical community adopted it initially to alleviate symptoms of upper airway obstruction, its range of medical uses has since expanded greatly, mostly because of the low density of the gas. Heliox is also used in saturation diving and sometimes during the deep... cc4dc0208b As digital infrastructure becomes more embedded in everyday life, cybersecurity... cc4dc0208b Standard diving dress consists of a diving helmet made from copper and brass or bronze, clamped over a watertight gasket to a waterproofed canvas suit, an air hose from a surface-supplied manually operated pump or low pressure breathing air compressor, a diving knife, and weights to counteract buoyancy, generally on the chest... cc4dc0208b

History of scuba diving magazine called The Skin Diver (later renamed Skin Diver Magazine). By the turn of the twentieth century, two basic architectures for underwater breathing apparatus had been pioneered; open-circuit surface supplied equipment where the diver's exhaled gas is vented directly into the water, and closed-circuit breathing apparatus where the diver's carbon dioxide is filtered from the exhaled breathing gas, which is then recirculated, and more gas added to replenish the oxygen

content. Neal Earl Hess, who had been teaching divers for two years, contributed to its column &quot;The The history of scuba diving is closely linked with the history of diving equipment. By the mid-twentieth century, high pressure cylinders were available and two systems for scuba had emerged: open-circuit scuba where the diver's exhaled. Closed circuit equipment was more easily adapted to scuba in the absence of reliable, portable, and economical high pressure gas storage vessels cc4dc0208b

Heliox &quot;The Heliox is a breathing gas mixture of helium (He) and oxygen (O2). 27 January 2009. Hess DR, Fink JB, Venkataraman ST, Kim IK, Myers TR, Tano BD (June 2006). It is used as a medical treatment for patients with difficulty breathing because this mixture generates less resistance than atmospheric air when passing through the airways of the lungs, and thus requires less effort by a patient to breathe in and out of the lungs. Linde Gas Therapeutics. &quot;Heliox21&quot;. It is also used as a breathing gas for deep ambient pressure diving as it is not narcotic at high pressure, and for its low work of breathing.
