

Retro Game Dev C64 Edition

The game was critically acclaimed and, while not an immediate commercial success, sold many copies as it was ported to a wide range of platforms after the original Apple II release. It is believed to have been the first cinematic platformer and inspired many games in this subgenre, such as Another World. Its success launched the Prince of Persia franchise, consisting of two sequels, Prince of Persia 2: The Shadow and the Flame (1993) and Prince of Persia 3D (1999), and two reboots: Prince of Persia: The Sands of Time (2003), which...

Much like Karateka, Mechner's first video game, Prince of Persia used rotoscoping for its fluid and realistic animation. For this process, Mechner used as reference for the characters' movements videos of his brother doing acrobatic stunts in white clothes and swashbuckler films such as The Adventures of Robin Hood. After the original game, a number of remakes, spinoffs, and sequels were published in the Lode Runner series for different computers and consoles by different developers and publishers. The game was created by designer-artist Paul Reiche III and programmer-engineer Fred Ford. Initially, the concept was based on the space combat seen in Spacewar! (1962), combined with the action-strategy gameplay seen in Archon: The Light and the Dark (1983). The alternate title, StarCon, was a play on words referring to Reiche's prior work on Archon, adapted into a science fiction setting. After developing the core space combat system, Reiche and Ford created an
