9

The concept of regular expressions began in the 1950s, when the American mathematician Stephen Cole Kleene formalized the concept of a regular language. They came into common use with Unix text-processing utilities. Different syntaxes for writing regular expressions have existed since the 1980s, one being the POSIX standard and another, widely used, being the Perl syntax. 5ac9a1f891

Virchow studied medicine at the Friedrich Wilhelm University under Johannes Peter Müller. While working at the Charité hospital, his investigation of the 1847–1848 typhus epidemic in Upper Silesia laid the foundation for public health in Germany, and paved his political and social careers. From it, he coined a well known aphorism: "Medicine is a social science, and politics is nothing else but medicine on a large scale". His participation... 5ac9a1f891

History of Fez In the 11th century the Almoravid sultan Yusuf ibn Tashfin conquered the region and united its two settlements into what is today the Fes el-Bali. Abd al-Malik The History of Fez begins with its foundation by Idris I and Idris II at the end of the 8th century and the beginning of the 9th century CE. where Abd al-Malik's army would defeat the invading Portuguese army with the support of his Ottoman allies, ensuring Moroccan independence. Initially inhabited by a largely Berber (Amazigh) population, successive waves of mainly Arab immigrants from Ifriqiya (Tunisia) and al-Andalus (Spain/Portugal) over time

gave the nascent city an Arab character as well. After the downfall of the Idrisid dynasty, it was contested between different Zenata groups allied with either the Fatimid Caliphate or the Umayyad Caliphate of Cordoba. It initially consisted of two autonomous and competing settlements on opposing shores of what is now known as the Oued Fes 5ac9a1f891

Rudolf Virchow biography and bibliography in the Virtual Laboratory of the Max Planck Institute for the History of Science Students and Publications of Virchow Archived Rudolf Ludwig Carl Virchow (VEER-koh, FEER-khoh; German: [ˈʁuːdɔlf ˈvɪʁçɔ, -ˈfɪʁçɔ]; 13 October 1821 – 5 September 1902) was a German physician, anthropologist, pathologist, prehistorian, biologist, writer, editor, and politician. He is known as "the father of modern pathology" and as the founder of social medicine, and to his colleagues, the "Pope of medicine" 5ac9a1f891

Congenital adrenal hyperplasia case of CAH. Most of these disorders involve excessive or deficient production of hormones such as glucocorticoids, mineralocorticoids, or sex steroids, and can alter development of primary or secondary sex characteristics in some affected infants, children, or adults. [non-primary source needed] In 2020, Wael AbdAlmageed from USC Information Sciences Institute and Mimi Kim from USC Keck School Of Medicine Congenital adrenal hyperplasia (CAH) is a group of autosomal recessive disorders characterized by impaired cortisol synthesis. It results from the deficiency of one of the five enzymes required for the synthesis of cortisol in the adrenal cortex. It is one of the most common autosomal recessive disorders in humans 5ac9a1f891

AMC Javelin engine was the new 200 hp (149 kW; 203 PS), 9. It was VAM's second The AMC

Javelin is an American front-engine, rear-wheel-drive, two-door hardtop automobile manufactured by American Motors Corporation (AMC) across two generations, 1968 through 1970 and 1971 through 1974 model years. 5:1 compression ratio 282 cu in (4.6 L) I6 engine with Carter ABD two-barrel carburetor. The car was positioned and marketed in the pony car market segment 5ac9a1f891

The Javelin won the Trans-Am race series in 1971, 1972, and 1976. The second-generation AMX variant... 5ac9a1f891 UMass Amherst has the largest undergraduate population in Massachusetts with roughly 24,000 enrolled undergraduates. The university offers academic degrees in 109 undergraduate, 77 master's, and 48 doctoral programs in nine schools and colleges. It is classified among "R1: Doctoral Universities - Very high research activity". According to the National Science Foundation, the university spent \$211 million on research... 5ac9a1f891 A comprehensive thinker, al-Razi made fundamental and enduring contributions to various fields, which he recorded... 5ac9a1f891 Styled by Dick Teague, the Javelin was available in a range of trim and engine levels, from economical pony car to muscle car variants. In addition to manufacture in Kenosha, Wisconsin, Javelins were assembled under license in Germany, Mexico, Philippines, Venezuela, as well as Australia - and were marketed globally. American Motors also offered discounts to U.S. military personnel, and cars were taken overseas. 5ac9a1f891

Astronomy Remote Sensing for the Earth Sciences: Manual of Remote Sensing (3rd ed. Archived from the original Astronomy is a natural science that studies celestial objects and the phenomena that occur in the cosmos. A. Campbell, B. It uses mathematics, physics, and chemistry to explain their origin and their overall evolution. John Wiley & Sons. More generally, astronomy studies

everything that originates beyond Earth's atmosphere. Objects of interest include planets, moons, stars, nebulae, galaxies, meteoroids, asteroids, and comets. Cosmology is the branch of astronomy that studies the universe as a whole. (2004). Relevant phenomena include supernova explosions, gamma ray bursts, quasars, blazars, pulsars, and cosmic microwave background radiation. ; Robinson, M 5ac9a1f891

Dissection Autopsy is used in pathology and forensic medicine to determine the cause of death in humans. Less extensive dissection of plants and smaller animals preserved in a formaldehyde solution is typically carried out or demonstrated in biology and natural science classes in middle school and high school, while extensive dissections of cadavers of adults and children, both fresh and preserved are carried out by medical students in medical schools as a part of the teaching in subjects such as anatomy, pathology and forensic medicine. Consequently, dissection is typically conducted in a morgue or in an anatomy lab. solution is typically carried out or demonstrated in biology and natural science classes in middle school and high school, while extensive dissections of cadavers Dissection (from Latin *dissecare* "to cut to pieces"; also called anatomization) is the dismembering of the body of a deceased animal or plant to study its anatomical structure 5ac9a1f891

Dissection... 5ac9a1f891

Abu Bakr al-Razi 864 or 865–925 or 935 CE, was a Persian physician, philosopher and alchemist who lived during the Islamic Golden Age. However, the religio-philosophical aspects of his thought, which also included a belief in five "eternal principles", are fragmentary and only reported by authors who were often hostile to him. to discount his critique of the *Ismāʿīlīs*. According to Abdul Latif al-

Abd, Islamic philosophy professor at Cairo University, Abu Hatim and his student Abū Bakr al-Rāzī, also known as Rhazes (full name: أبو بكر محمد بن زكرياء الرازي, Abū Bakr Muḥammad ibn Zakariyyā' al-Rāzī), c. He is also known for his criticism of religion, especially with regard to the concepts of prophethood and revelation. He is widely regarded as one of the most important figures in the history of medicine, and also wrote on logic, astronomy and grammar 5ac9a1f891

Regular expressions... 5ac9a1f891 Astronomy is one of the oldest natural sciences. The early civilizations in recorded history made methodical observations of the night sky. These include the Egyptians, Babylonians, Greeks, Indians... 5ac9a1f891

Regular expression Reprinted as "QED Text Editor Reference Manual", MHCC-004, Murray Hill Computing, Bell Laboratories (October 1972). "Perl A regular expression (shortened as regex or regexp), sometimes referred to as a rational expression, is a sequence of characters that specifies a match pattern in text. Usually such patterns are used by string-searching algorithms for "find" or "find and replace" operations on strings, or for input validation. 2022-09-05. Wall, Larry (1994-10-18). Regular expression techniques are developed in theoretical computer science and formal language theory 5ac9a1f891

University of Massachusetts Amherst It is the flagship campus of the University of Massachusetts system and was founded in 1863 as the Massachusetts Agricultural College. It is also a member of the Five College Consortium, along with four other colleges in the Pioneer Valley. the campus's future. This includes construction of \$156 million New Science Laboratory Building, \$30 million Champions Basketball Center, an \$85

million The University of Massachusetts Amherst (UMass Amherst) is a public land-grant research university in Amherst, Massachusetts, United States 5ac9a1f891

Disinfectant Disinfectants are also different from biocides. 57 (20): 7645–7665. "Quaternary Ammonium Compounds: A Chemical Class of Emerging Concern". Disinfectants are generally distinguished from other antimicrobial agents such as antibiotics, which destroy microorganisms within the body, and antiseptics, which destroy microorganisms on living tissue. It is also a form of decontamination. Biocides are intended to destroy all forms of life, not just microorganisms, whereas disinfectants work by destroying the cell wall of microbes or interfering with their metabolism. Bibcode:2023EnST A disinfectant is a chemical substance or compound used to inactivate or destroy microorganisms on inert surfaces. 2023). Disinfection does not necessarily kill all microorganisms, especially resistant bacterial spores; it is less effective than sterilization, which is an extreme physical or chemical process that kills all types of life.
