

Seriously Funny The Endlessly Quotable Terry Pratchett

I think this is quite a comprehensive article and deals fully with the subject and related controversy. I know it's not the most exciting of topics but I'd be eternally grateful to anyone who could take a look and give their thoughts/opinions/recommendations/criticisms (anything!). Thanks

Wikipedia:Featured article candidates/Archived nominations/June 2008 Really, one is enough == June 2008 ==. June 2008 (UTC) Current ref 190 "Pratchett, Terry and embuggerance" is lacking last access date I decided to remove the reference 65258b98e0

=== Scottish Parliament Building === 65258b98e0 I realize that much of what is here can be cited by the Japanese Constitution, but I believe the structure of the article seems a bit strange. Even some of the material that is pasted here was copied from public domain sources, such as the US Government. Plus, I am not sure what to include in here and what sources I can take a peek at. Anyways, all help and suggestions are welcome and appreciated, since I believe this should be featured after some work and tender-loving care is applied to the article. Wikipedia:Peer review/June 2007 hard to be quotable, here comes this guy who pulls out the rug from under everyone else with a throwaway line in a footnote. Sigh.
