Auto mechanic Their work may involve the repair of a specific part or the replacement of one or more parts as assemblies. Basic vehicle maintenance is a fundamental. In fixing cars, their main role is to diagnose and repair the problem accurately. The approved work will be assigned to the mechanic on a work order. National Automotive Technicians Education Foundation (NATEF) is responsible for evaluating training programs against standards developed by the automotive industry. An auto mechanic is a mechanic who services and repairs automobiles, sometimes specializing in one or more automobile brands or sometimes working with any brand. Based on the concern, the inspection results and preventative maintenance needs, the mechanic/technician returns the findings to the service advisor who then gets approval for any or all of the proposed work. [1] Seasoned auto repair shops start with a (Digital) Inspection to determine the vehicle conditions, independent of the customers concern
