Literature review A Playbook for Research Methods: Integrating Conceptual Frameworks and Project Management A literature review is an overview of previously published works on a particular topic. 1111/puar. Either way, a literature review provides the researcher/author and the audiences with general information of an existing knowledge of a particular topic. The term can refer to a full scholarly paper or a section of a scholarly work such as books or articles. Shields, Patricia; Rangarjan, Nandhini (2013). doi:10. It serves to situate the current study within the body of the relevant literature and provides context for the reader. In such cases, the review usually precedes the methodology and results sections of the work. A good literature review has a proper research question, a proper theoretical framework, and/or a chosen research methodology. 13756
