Initially, from 1887 at the earliest, teleprinters were used in telegraphy. Electrical telegraphy had been developed decades earlier in the late 1830s and 1840s, then using simpler Morse key equipment and telegraph operators. The introduction of teleprinters automated much of this work and eventually largely replaced skilled operators versed in Morse code with typists and machines communicating faster via Baudot code. a4dd8c4a87

List of ISO standards 10000–11999 For a complete and up-to-date list of all the ISO standards, see the ISO catalogue. technology - Security techniques - Modes of operation for an n-bit block cipher ISO/IEC 10118 Information technology - Security techniques - Hash-functions This is a list of published International Organization for Standardization (ISO) standards and other deliverables a4dd8c4a87
