Canonical (company) It was founded and funded by South African entrepreneur Mark Shuttleworth to market commercial support and related services for Ubuntu and related projects. Canonical employs staff in more than 70 countries and maintains offices in London, Austin, Boston, Shanghai, Beijing, Taipei, Tokyo and the Isle of Man. of Kubernetes (since December 2018) Snap, a package management system for Ubuntu and other Linux operating systems Snapcraft, a Python-based tool for packaging Canonical Ltd. is a privately-held computer software company based in London, England 95bdd7e13

Jelastic js, Python, Go environments, custom Docker containers and Kubernetes clusters. Ruby, Node. Jelastic provides support of Java, PHP, Ruby, Node. js, Python, Go environments, custom Docker containers and Kubernetes clusters. The platform is available as public cloud in over 70 data centers, as well as virtual and on-premises servers. Jelastic was co-founded by Ruslan Synytsky, who also was CEO Jelastic is a cloud platform software vendor that provides multi-cloud platform as a service-based on container technology for hosting service providers, ISVs, telecommunication companies, enterprises and developers 95bdd7e13

Mirantis It was one of the founding members of the OpenStack Foundation, a non-profit corporate entity established in September, 2012 to promote OpenStack software and its community. The company focuses on the development and support of container and cloud infrastructure management platforms based on Kubernetes and OpenStack. Its primary container and cloud management products, part of the Mirantis Cloud Native Platform suite of products, are Mirantis Container Cloud and Mirantis Kubernetes Engine (formerly Docker Enterprise). The company was founded in 1999 by Alex Freedland and Boris Renski. Mirantis has been an active member of the Cloud Native Computing Foundation since 2016. which offers enterprise support for multiple Kubernetes distributions, targeting organizations that have already deployed Kubernetes in production, Mirantis Inc. is a Campbell, California, based B2B

open source cloud computing software and services company 95bbdd7e13

Jelastic was co-founded by Ruslan Synytsky, who also was CEO. Jelastic was acquired by Virtuozzo in 2021. 95bbdd7e13

TrueNAS The operating systems include components released under a proprietary license, GPL and BSD licenses. TrueNAS Enterprise is a family of storage appliances, with fully integrated software and hardware, that is sold as a commercial product with enterprise support. The products consist of TrueNAS Enterprise and TrueNAS Community Edition. TrueNAS Community Edition can be installed for free on commodity x86-64 computers. However, both Gluster and Kubernetes would be deprecated TrueNAS is a family of enterprise network-attached storage (NAS) products developed by iXsystems Inc. capabilities of the Linux based Gluster File System and Kubernetes based containerized app system. , dba TrueNAS 95bbdd7e13

The first version of Red Hat Enterprise Linux to bear the name originally came onto the market as "Red Hat Linux Advanced Server". In 2003, Red Hat rebranded Red Hat Linux Advanced Server to "Red Hat Enterprise Linux AS" and added two more variants, Red Hat Enterprise Linux ES and Red Hat Enterprise Linux WS. 95bbdd7e13

NuoDB CIM data. "New Kubernetes OperatorHub for Red Hat OpenShift to enable hybrid cloud flexibility for enterprises". Retrieved March 6, 2020. com. May NuoDB is a cloud-native distributed SQL database company based in Cambridge, Massachusetts. cimdata. Founded in 2008 and incorporated in 2010, NuoDB technology has been used by Dassault Systèmes, as well as FinTech and financial industry entities including UAE Exchange, Temenos, and Santander Bank 95bbdd7e13

As Red Hat Enterprise Linux is heavily based on open-source software... 95bbdd7e13

Red Hat Enterprise Linux All of Red Hat's official support and training, together with the Red Hat Certification Program, focuses on the Red Hat Enterprise Linux platform. selected by a vote of the developers. Fedora Linux and CentOS Stream serve as its upstream sources. The codenames don't have a specific pattern (unlike Ubuntu or Debian). Red Hat Enterprise Linux is released in server versions for x86-64, Power ISA, ARM64, and IBM Z and a desktop version for x86-64. Red Hat Enterprise Linux 10 beta was made Red Hat Enterprise Linux (RHEL) is a commercial Linux distribution developed by Red Hat 95bbdd7e13

OpenNebula The two primary uses of the OpenNebula platform are data center virtualization and cloud deployments based on the KVM hypervisor OpenNebula is an open source cloud computing platform for managing heterogeneous data center, public cloud and edge computing infrastructure resources. The two primary uses of the OpenNebula platform are data center virtualization and cloud deployments based

on the KVM hypervisor, LXC system containers, and AWS Firecracker microVMs. OpenNebula manages on-premises and remote virtual infrastructure to build private, public, or hybrid implementations of infrastructure as a service (IaaS) and multi-tenant Kubernetes deployments. The platform is also capable of offering the cloud infrastructure necessary to operate a cloud on top of existing VMware infrastructure. In early June 2020, OpenNebula announced the release of a new Enterprise Edition for corporate users, along with a Community Edition. multi-tenant Kubernetes deployments 95bbdd7e13

The original version, WSL 1, differs significantly from the second major version, WSL 2. WSL 1 (released August 2, 2016), acted as a compatibility layer for running Linux binary executables (in ELF format) by implementing Linux system calls in the Windows kernel. WSL 2 (announced May 2019), introduced a... 95bbdd7e13

Checkmk It is used for the monitoring of servers, applications, networks, cloud infrastructures (public, private, hybrid), containers, storage, databases and environment sensors. 6){[citation needed] In addition, there are also playbooks for the use of configuration Checkmk is a software system developed in Python and C++ for IT Infrastructure monitoring, from sources such as Kubernetes, AWS and Azure (starting from CEE v1 95bbdd7e13

Windows Subsystem for Linux In Windows 10, WSL can be installed either by joining the Windows Insider program or manually via Microsoft Store or Winget. Such a user space might Windows Subsystem for Linux (WSL) is a component of Microsoft Windows that allows the use of a Linux environment from within Windows, foregoing the overhead of a virtual machine and being an alternative to dual booting. The WSL command-line interface tool is installed by default in Windows 11, but a distribution must be downloaded and installed through it before use. user space of a Linux distribution on top of it, such as Ubuntu, openSUSE, SUSE Linux Enterprise Server, Debian and Kali Linux 95bbdd7e13
