General relativity General relativity generalizes special relativity
and refines Newton's law of universal gravitation, providing a

unified description of gravity as a geometric property of space and time, or four-dimensional spacetime. accepted description of gravitation in modern physics. The relation is specified by the Einstein field equations, a system of second-order partial differential equations. In particular, the curvature of spacetime is directly related to the energy, momentum and stress of whatever is present, including matter and radiation. General relativity generalizes special relativity and refines Newton's law of universal gravitation General relativity, also known as the general theory of relativity, and as Einstein's theory of gravity, is the geometric theory of gravitation published by Albert Einstein in 1915 and is the accepted description of gravitation in modern physics
