The Anatomy of Revolution Roskin et al. The Anatomy of Revolution is a 1938 book by Crane Brinton outlining the "uniformities" of four major political revolutions: the English Revolution of the 1640s, the American, the French, and the Russian revolutions. The book has been called "classic," "famous" and a "watershed in the study of revolution", and has been influential enough to have inspired advice given to US President Jimmy Carter by his National Security Advisor Zbigniew Brzezinski during the Iranian Revolution. It has been referenced in the well-known text Political Science: An Introduction by Michael G. Brinton notes how the revolutions followed a life-cycle from the Old Order to a moderate regime to a radical regime, to Thermidorian reaction
