Genetically modified food controversies "Report of an Expert Panel on the reanalysis by of a 90-day study conducted by Monsanto in support of the Consumers, farmers, biotechnology companies, governmental regulators, non-governmental organizations, and scientists have been involved in controversies around foods and other goods derived from genetically modified crops instead of conventional crops, and other uses of genetic engineering in food production. Lovell DP, Lynch B, Munro IC (November 2007). The key areas of controversy related to genetically modified food (GM food or GMO food) are whether such food should be labeled, the role of government regulators, the objectivity of scientific research and publication, the effect of genetically modified crops on health and the environment, the effect on pesticide resistance, the impact of such crops for farmers, and the role of the crops in feeding the world population. In addition, products derived from GMO organisms play a role in the 2d2905c307
