European science in the Middle Ages the development of science in medieval Europe by writing to the pope to encourage the study of natural science in university courses and compiling several European science in the Middle Ages comprised the study of nature, mathematics and natural philosophy in medieval Europe. Scholarship and scientific discoveries of the Late Middle Ages laid the groundwork for the Scientific Revolution of the Early Modern. However, by the time of the High Middle Ages, the region had rallied and was on its way to once more taking the lead in scientific discovery. Following the fall of the Western Roman Empire and the decline in knowledge of Greek, Christian Western Europe was cut off from an important source of ancient learning. Although a range of Christian clerics and scholars from Isidore and Bede to Jean Buridan and Nicole Oresme maintained the spirit of rational inquiry, Western Europe would see a period of scientific decline during the Early Middle Ages 1413df2e6a
