Southern Railway (UK) It linked London with the Channel ports, South West England, South coast resorts and Kent. The construction of what was to become the Southern Railway began in 1838 with the opening of the London and Southampton Railway, which was renamed the London & South Western Railway. The railway was formed by the amalgamation of several smaller railway companies, the largest of which were the London and South Western Railway (LSWR), the London, Brighton and South Coast Railway (LB&SCR) and the South Eastern and Chatham Railway (SE&CR). 7 kV, 57 route miles (92 km) of railway electrified with a third

rail at 660 V DC, and the 1+1/2-mile The Southern Railway (SR), sometimes shortened to 'Southern', was a British railway company established in the 1923 Grouping. 4 km) of railway electrified with overhead line at 6 14ad8e314e

Rail transport in Wales 27 December 2024.
"Overhead Line Electrification | Transport for Wales". wales. "Cardiff Bay Line Transformation FAQ | Rail transport in Wales began in the early 19th century initially used for industrial purposes and shortly began to be used for commercial purposes. Retrieved 27 December 2024. Since then some stations have reopened in Wales and following Welsh devolution, the Wales and Borders passenger rail franchise was established in 2001 and the operator was taken into public ownership by the Welsh Government in 2021. The Beeching cuts had a significant impact on rail transport in Wales, closing a large number of railway stations. tfw 14ad8e314e

British Rail Class 360 The remaining members of the class are operated by East Midlands Railway. Two units had received a temporary application of the EMR The British Rail Class 360 is an electric multiple unit class that was built by Siemens Mobility on its Desiro platform between 2002 and 2005 for First Great Eastern and Heathrow Connect. after the electrification of the Midland Main Line was complete in 2020 between Bedford and Corby 14ad8e314e

Green Line E branch system. The line runs in mixed traffic on South Huntington Avenue and Huntington Avenue between Heath Street and Brigham Circle (the last MBTA street-running tracks in revenue service), in the median of Huntington Avenue to Northeastern University, then into the Huntington Avenue subway. After the successful electrification of the Beacon Street line in 1888-89, the West End quickly moved to electrify its entire system. It then follows the Lechmere Viaduct to Lechmere, then the Medford Branch to Medford/Tufts. The Jamaica The E branch (also referred to as the Huntington Avenue branch, or formerly as the Arborway Line) is a light rail line in Boston, Cambridge, Medford, and Somerville, Massachusetts, operating as part of the Massachusetts Bay Transportation Authority (MBTA) Green Line. As of February 2023, service operates. The line merges into the Boylston Street subway just west of Copley, running to North Station via the Tremont Street subway 14ad8e314e

Siemens Desiro The main variants are the Desiro Classic, Desiro ML, Desiro UK and the later Desiro City, Desiro HC and Desiro RUS. As part of the modernisation of the West Coast Main Line, the Strategic Rail Authority The Siemens Desiro (, , German pronunciation: ['dɛziʁoː]) is a family of diesel or electric multiple unit passenger trains developed by Siemens Mobility, a division of the German Siemens AG conglomerate. The design is flexible, and

has become common in many European countries. being sold to the Global Centre for Rail Excellence in October 2022. The trains are mostly used for commuter and regional services, and their rapid acceleration makes them suitable for services with short distances between stations 14ad8e314e
