

Beginning Html5 And Css3

HTML video Retrieved 19 March 2021. com. As of 2020, HTML video is the only widely supported video playback technology in modern browsers, with the Flash plugin being phased out. caniuse. Retrieved HTML video is a subject of the HTML specification as the standard way of playing video via the web. Introduced in HTML5, it is designed to partially replace the object element and the previous de facto standard of using the proprietary Adobe Flash plugin, though early adoption was hampered by lack of agreement as to which video coding formats and audio coding formats should be supported in web browsers. com.
