English trust law Trusts were a creation of the English law of property and obligations, and share a subsequent history with countries across the Commonwealth and the United States. Historically, trusts have mostly been used where people have left money in a will, or created family settlements, charities, or some types of business venture. On the King's behalf, the Lord Chancellor developed a parallel justice system in the Court of Chancery, commonly referred as equity. English trust law concerns the protection of assets, usually when they are held by one party for another's benefit. After the Judicature Act 1873, England's courts of equity and common law. Trust (social science) It brings with it a willingness for one party (the trustor) to become vulnerable to another party (the trustee), on the presumption that the trustee will act in ways that benefit the trustor. In addition, the trustor does not have control over the actions of the trustee. Scholars distinguish between generalized trust (also known as social trust), which is the extension of trust to a relatively large circle of unfamiliar others, and particularized trust, which is contingent on a specific situation or a specific relationship. It brings with it a willingness for one party (the trustor) to become vulnerable to another Trust is the belief that another person will do what is expected.
