

Mtu 838 Cam 500 Manual

Leopard 1 It featured moderate armour, only effective against low caliber autocannons and heavy machine guns, giving it a high power-to-weight ratio. Developed in an era when HEAT warheads were thought to make conventional heavy armour of limited value, the Leopard design focused on effective firepower and mobility instead of heavy protection. 610 kilowatts The Kampfpanzer Leopard, subsequently Leopard 1 following the introduction of the successive Leopard 2, is a main battle tank designed by Porsche and manufactured by Krauss-Maffei in West Germany, first entering service in 1965. The tank is powered by an MTU MB 838 Ca-M500 supercharged diesel engine that develops approx. This, coupled with a modern suspension and drivetrain, gave the Leopard superior mobility and cross-country performance compared to most other main battle tanks of the era, only being rivaled by the French AMX-30 and Swedish Strv 103. monitor a designated sector around the vehicle 9e36b94d15
