Education Additionally, the term "education" can denote. Other classifications focus on teaching methods, such as teacher-centered and student-centered education, and on subjects, such as science education, language education, and physical education. In most Education is the transmission of knowledge and skills and the development of character traits. Formal education occurs within a structured institutional framework, such as public schools, following a curriculum. Undetected

cheating during exams, such as utilizing a cheat sheet, poses a threat to this system by potentially certifying unqualified students. Formal and non-formal education are categorized into levels, including early childhood education, primary education, secondary education, and tertiary education. Non-formal education also follows a structured approach but occurs outside the formal schooling system, while informal education involves unstructured learning through daily experiences
