Originally predicted to sell 100,000 vehicles yearly, the 1965 Mustang became the most successful vehicle launch since the 1927 Model A. Introduced on April 17, 1964 (16 days after the Plymouth Barracuda), over 400,000 units were sold in its first year; the one-millionth Mustang was sold within two years...

Ford Mustang from other American manufacturers, including the Chevrolet Camaro and Pontiac Firebird (1967), AMC Javelin (1968), and Dodge Challenger (1970). Currently in its seventh generation, it is the fifth-best selling Ford car nameplate. It also competed The Ford Mustang is a series of American automobiles manufactured by Ford. The namesake of the "pony car" automobile segment, the Mustang was developed as a highly styled line of sporty coupes and convertibles derived from existing model lines, initially distinguished by "long hood, short deck" proportions. In continuous production since 1964, the Mustang is currently the longest-produced Ford car nameplate

The second KITT is known as the Knight Industries Three Thousand, which appeared first in the two-hour 2008 pilot film for a new Knight Rider TV series and then the new series itself, and appeared as a 2008–2009 Ford Shelby GT500KR. A number of innovations were either invented or improved sufficiently to allow for mass production during the decade: air conditioning, automatic... In both instances, KITT is an artificially intelligent electronic computer module in the body of a highly advanced, very mobile, robotic automobile.

Electromod built on a Jerry Bickel Pro Stock chassis with the body of a 2003 Pontiac Firebird and is powered by two AMRacing A/C electric traction motors producing An electromod is a vehicle that has been restored and modified by converting its drivetrain to operate as an electric vehicle (EV). The term is a portmanteau of electrification and restomod, itself a portmanteau of restoration and modification, a process which traditionally has been associated with classic cars. Most electromods are one-off custom vehicles performed by specialty repair shops and hobbyists, but starting in the late

2010s, automobile manufacturers have been building their own electromods, sometimes with the assistance of specialty shops, to publicize their shift to battery electric powertrains and to build interest in crate engine EV drivetrain products e6949d164d

Pontiac Firebird (third generation) These were also the first Firebirds with factory fuel injection, four-speed automatic transmissions, five-speed manual transmissions, four-cylinder engines, 16-inch wheels, and hatchback bodies. The third generation Pontiac Firebird was introduced in late 1981 by Pontiac alongside its corporate cousin, the Chevrolet Camaro for the 1982 model year The third generation Pontiac Firebird was introduced in late 1981 by Pontiac alongside its corporate cousin, the Chevrolet Camaro for the 1982 model year e6949d164d

Also commonly known by the nickname "Fishbowl" (for its original six-piece rounded windshield, later replaced by a two-piece curved pane), it was produced until 1977 in the United States, and until 1985 in Canada. The side windows were trapezoidal in shape, featuring a forward slant, and GM introduced quad headlights, which had first appeared in cars in 1958. More than 44,000 New Look buses were built. Its high production figures and long service career made it an iconic North American transit bus. The design is listed as U.S. patent D182,998 by... e6949d164d

GM New Look bus com a great resource for bus repair, restoration and free manuals. The GM New Look bus is a municipal transit bus that was introduced in 1959 by the Truck and Coach Division of General Motors to replace the company's previous coach, retroactively known as the GM "old-look" transit bus which was introduced in 1940. lists of New Look buses, with serial numbers and original purchasers DieselBusParts e6949d164d

American automobile industry in the 1950s com. oldcarmanualproject. The post-World War II era brought a wide range of new technologies to the automobile consumer, and a host of problems for the independent automobile manufacturers. The industry was maturing in an era of rapid technological change; mass production and the benefits from economies of scale led to innovative designs and greater profits, but stiff competition between the automakers. The age of small independent automakers was nearly over, as most of them either consolidated or went out of business. 1950 - 1953 Chevrolet Powerglide Automatic Transmission Repair Manual. By the end of the decade, the industry had reshaped itself into the Big Three, Studebaker, and AMC. Automatic Shift". Archived from the original on August 13, 2011 The 1950s were pivotal for the American automobile industry e6949d164d

US-1 Trucks Pickup truck, Dodge delivery van, ambulance, Jeep, and a Pontiac Firebird Coupé. It was marketed under the tagline of "You Control The Action. ". Its theme was based around road and construction heavy-duty diesel trucks. The Firebird appeared in both powered (black color with gold eagle) and Tyco US-1 Electric Trucking was a slot car line made by Tyco Slot Cars from 1981 to 1985 e6949d164d

OBD systems give the vehicle owner or repair technician access to the status of the various vehicle sub-systems. The amount of diagnostic information available via OBD has varied widely since its introduction in the early 1980s versions of onboard vehicle computers. Early versions of OBD would simply illuminate a tell-tale light if a problem was detected, but would not provide any information as to the nature of the problem. Modern OBD implementations use... e6949d164d
