Lohia Machinery Limited LML (formerly Lohia Machines Ltd) was an Indian scooter and motorcycle manufacturer formerly based in Kanpur, Uttar Pradesh. Incorporated as Lohia Machines LML (formerly Lohia Machines Ltd) was an Indian scooter and motorcycle manufacturer formerly based in Kanpur, Uttar Pradesh 5bee53cf88

Types of motorcycles touring, sports, off-road, dual-purpose, scooters, etc. Models vary according to the specific needs of each user, such as standard, cruiser, touring, sports, off-road, dual-purpose, scooters, etc. There is no universal In the market, there is a wide variety of types of motorcycles, each with unique characteristics and features. Often, some hybrid types like sport touring are considered as an additional category. Often, some hybrid types like sport touring are considered as an additional category 5bee53cf88

The bike featured a new, more modern-looking aesthetic design, with a tubular trellis-style frame, more similar to the first generation SV650, and an upgraded engine in an effort to increase fuel economy, lower the emissions, and increase peak power and low- to mid-range torque. Also, the seat height was lowered from 800 mm (31.5 in) to 785 mm (30.9 in). 5bee53cf88 It was sold mostly in Malaysia and Vietnam, and in small numbers in New Zealand and Greece. 5bee53cf88 Unusually, for this class of vehicle, all versions were equipped with a very reliable fully automatic three-speed gearbox, with the primary method of drive being a chain. 5bee53cf88

Honda Today supermini with an engine larger than what kei car legislation allowed. It was replaced by the Honda Life in 1998. The Today name has since been used by Honda for a 50 cc scooter manufactured in The Honda Today (Japanese: ホンダトゥデイ) is a kei car produced by Japanese automaker Honda beginning in 1985

In 2017 the Gladius was... The CS50 and CS80 are virtually mechanically identical, the main differences being a two-person seat, larger brakes (foot operated on rear) and larger headlight... The Today represented Honda's reentry into kei car production. Honda had abandoned kei passenger cars in 1975, choosing only to keep manufacturing the Honda Acty kei truck and the related Honda Street microvan in that segment. After 1975, Honda's smallest car was the Civic, until the introduction of the smaller City in 1981, which was a supermini with an engine larger than what kei car legislation allowed. The Today name has since been used by Honda for a 50 cc scooter manufactured in China, available from 2002 until 2016. At the Tokyo Motor Show in 2009, Suzuki announced they would also be making smaller capacity, 400cc Gladius SFV400 for the Japanese market. Suzuki has over 45,000 employees and has 35 production facilities in 23 countries, and 133 distributors in 192 countries. The worldwide sales volume of automobiles is the world's tenth largest, while domestic sales volume is the third largest in the country.

List of Kawasaki motorcycles (1967–1971) Agila HD 125 (1974–1989) B1-125cc (1966–2001) B85 & B85M 125 (1965) D1 100 (1966–1969) Eliminator 125 ER-5 Fury 125 GTO 125 (1983–1993) HD-1 100cc This is a list of Kawasaki motorcycles designed and/or manufactured by Kawasaki Heavy Industries Motorcycle & Engine and its predecessors

The global popularity of motor scooters dates from the post-World War II introductions of the Vespa and Lambretta models in Italy. These scooters were intended to provide economical personal transportation (engines from 50 to 150 cc or 3.1 to 9.2 cu in). The original layout is still widely used... Unlike the FXR150 and Raider 150, which have a six-speed manual transmission, the FX125 and Raider 125 engines have a five-speed short gear ratio manual transmission. The frame, rear...

Motorcycle engine Motorcycle engines are typically two-stroke or four-stroke internal combustion engines, but other engine types, such as Wankels and electric motors, have been used. final-drive of scooters runs in

an oil-bath within the engine casings. “Step-through” motorcycles may have a rigidly fixed engine, or may have a scooter-type arrangement A motorcycle engine is an engine that powers a motorcycle 5bee53cf88

Suzuki SFV650 Gladius The Suzuki Gladius SFV650 is a naked motorcycle introduced by Suzuki for the 2009 model year with the intention of it being a replacement for the SV650 The Suzuki Gladius SFV650 is a naked motorcycle introduced by Suzuki for the 2009 model year with the intention of it being a replacement for the SV650. Subsequently, in most countries the half-fairing second-generation SV650S continued to be sold alongside the Gladius until 2014 5bee53cf88

Most engines have a gearbox with up to six or even 7 ratios. Reverse gear is occasionally found on heavy tourers, for example the Honda GL1600, and sidecar motorcycles, such... 5bee53cf88

Scooter (motorcycle) A scooter (motor scooter) is a motorcycle with an underbone or step-through frame, a seat, a transmission that shifts without the operator having to operate A scooter (motor scooter) is a motorcycle with an underbone or step-through frame, a seat, a transmission that shifts without the operator having to operate a clutch lever, a platform for their feet, and with a method of operation that emphasizes comfort and fuel economy. More recently, scooters have evolved to include scooters exceeding 250cc classified as Maxi-scooters. Elements of scooter design were present in some of the earliest motorcycles, and motor scooters have been made since at least 1914 5bee53cf88

Suzuki FX125 6 cu in) DOHC four-valve single-cylinder engine. 125 cc (7. 2 cu in) engine which powers the Suzuki The Suzuki FX125 is an underbone motorcycle manufactured in Malaysia from 1998, with a powerful four-stroke engine. This engine is of the same design as the 150 cc (9 5bee53cf88

Although some mopeds, such as the VéloSoleX, had friction drive to the front tire, a motorcycle engine normally drives the rear wheel, power being sent to the driven wheel by belt, chain or shaft. Historically, some 2,000 units of the Megola were produced between 1921 and 1925 with front wheel drive, and the modern Rokon, an all terrain motorcycle with both wheels driven, has been produced since 1960. 5bee53cf88 There is no universal system for classifying all types of motorcycles. However, some authors argue that there are generally six categories recognized by most motorcycle manufacturers and organizations, making clear

distinctions between these six main types and other motorcycles. For example, scooters, mopeds, underbones, minibikes, pocket bikes, electric bikes such as surrons or talarias or even skark vargs, and three-wheeled motorcycles are often excluded from... 5bee53cf88

Suzuki CS The Suzuki CS is a series of scooters/mopeds that were produced between 1982 and 1988 by the Suzuki Motor Corporation in Japan. The line-up consisted of three basic models, the CS50 (49cc two-stroke engine), CS80 (79cc two-stroke) and CS125 (125cc four-stroke). The line-up consisted The Suzuki CS is a series of scooters/mopeds that were produced between 1982 and 1988 by the Suzuki Motor Corporation in Japan. The CS series were marketed as the 'Suzuki Gemma' in Asia, and the 'Suzuki Roadie' in the UK and Australasia. The CS series was also produced under licence and sold in continental Europe as the 'Puch Lido' 5bee53cf88

Suzuki's domestic motorcycle sales volume is the third largest in Japan. 5bee53cf88 It uses a five-speed 125 cc (7.6 cu in) DOHC four-valve single-cylinder engine. This engine is of the same design as the 150 cc (9.2 cu in) engine which powers the Suzuki FXR150 sports bike and another underbone, the Suzuki Raider 150. The engine features Suzuki Advanced Cooling System, in which oil as well as air is used to cool the engine. To cool the oil, the engine is fitted with an external oil cooler. 5bee53cf88
