Serial killer As a group, serial killers suffer from a variety of personality disorders. Their psychological gratification is the motivation for the killings, and many serial murders involve sexual contact with the victims at different points during the murder process. The victims tend to have things in common, such as demographic profile, appearance, gender, or race. A serial killer (also called a serial murderer) is an individual who murders three or more people, with the killings taking place over a period of more A serial killer (also called a serial murderer) is an individual who murders three or more people, with the killings taking place over a period of more than one month in three or more separate events. Most are often not adjudicated as. The United States Federal Bureau of Investigation (FBI) states that the motives of serial killers can include anger, thrill-seeking, attention seeking, and financial gain, and killings may be executed as such aed1221b0b
