

Plastic Model Kits

International Plastic Modellers' Society The International Plastic Modellers' Society (often shortened to IPMS) is an international organisation of hobbyists interested in building plastic model kits. The first branch was established in the United Kingdom in 1963. The Society is made up of national branches, and within these, local clubs who usually represent a town, city or locality. International Plastic Modellers' Society (often shortened to IPMS) is an international organisation of hobbyists interested in building plastic model kits

Hasegawa Corporation that manufactures plastic model kits of a variety of vehicles, including aircraft, cars, ships, military vehicles, model armor, model space craft, and The Hasegawa Corporation (株式会社ハセガワ, Kabushiki Gaisha Hasegawa) is a Japanese company that manufactures plastic model kits of a variety of vehicles, including aircraft, cars, ships, military vehicles, model armor, model space craft, and science fiction kits

Scale models are used as tools in engineering design and testing, promotion and sales, filmmaking special effects, military strategy, and hobbies such as rail transport modeling, wargaming and racing; and as toys. Model building is also pursued as a hobby for the sake of artisanship. After some attempts to revive the brand, rights to Hawk Model were finally acquired by Round 2.

Garage kit enthusiasts could acquire the old plastic model kits. In the early to mid-1980s, hobbyists began creating their own garage kits of movie monsters. There was A garage kit (or resin kit) is an assembly scale model kit most commonly cast in polyurethane resin

Dragon Models Limited The company is headquartered in the Tsuen Wan district of Hong Kong, and operates a sales

and distribution office in Shanghai China. Founded in 1987, the company's products are distributed globally and can be found in most major hobby distribution channels and retailers. Founded Dragon Models Limited (Dragon or DML for short) is a Hong-Kong-based manufacturer of plastic model kits, diecast models and military action figures. Dragon Models Limited (Dragon or DML for short) is a Hong-Kong-based manufacturer of plastic model kits, diecast models and military action figures. They are known for their attention to historical accuracy and detail, and have worked with many renowned military experts for their product designs. Since its founding, it has released more than 1,000 items 9c2be5be66

Primarily using polystyrene, Hasegawa kits are typically regarded as very accurate, but without quite the ease-of-assembly that Tamiya kits offer, though of very high standard nonetheless. Currently, Hasegawa kits are imported into North America by Hobbico's Great Planes Model Distributor division. Hasegawa ended their long-time agreement with Dragon Models Limited for US distribution in early 2010. Hasegawa also imports... 9c2be5be66

Plastic model kit A plastic model kit depicts various subjects, ranging from real life military and civilian vehicles to characters and machinery from original kit lines and pop fiction, especially from eastern pop culture. A kit varies in difficulty, ranging from a "snap-together" model that assembles straight from the box, to a kit that requires special tools, paints, and plastic cements. A plastic model kit, (plamo in Eastern influenced parlance),[citation needed] is a consumer-grade plastic scale model manufactured as a kit, primarily A plastic model kit, (plamo in Eastern influenced parlance), is a consumer-grade plastic scale model manufactured as a kit, primarily assembled by hobbyists, and intended primarily for display 9c2be5be66

There are larger size (12-inch or 30 cm tall) that have been produced for recent movie characters (Princess Leia from Star Wars, for example). Large plastic military figures are made by some model soldier manufacturers... 9c2be5be66 Originally garage kits were amateur-produced, and the term originated with dedicated hobbyists using their garages as workshops. Unable to find model kits of subjects they wanted on the market, they began producing kits of their...

Based in Shizuoka, Hasegawa competes against its neighbor, Tamiya, though it does not have as large a line of products. Scale models are constructed of plastic, wood, or metal. They are usually painted with enamel, lacquer, or acrylics.

Hawk Model Company “Hawk Model Airplanes” The Hawk Model Company is an American brand and former manufacturing company of scale model airplanes, ships, and figures, established in 1928. Headquartered in Chicago, Hawk was one of the first American manufacturers of injection-molded plastic model kits. After some attempts to revive the brand, rights to Hawk Model were finally acquired by Round 2. injection-molded plastic model kits

They are often model figures portraying humans or other living creatures. In Japan, kits often depict anime characters, and in the United States, depictions of movie monsters are common. However, kits can be produced depicting a wide range of subjects, from characters in horror, science fiction, fantasy films, television and comic books to nudes, pin-up girls and original works of art, as well as upgrade and conversion kits for existing models and airsoft guns.

Model car Other miniature motor vehicles, such as trucks, buses, or even ATVs, etc. are often included in this general category. Precision-detailed miniatures made specifically for adults are a significant part of the market since the mid-1980s. [page needed] By the mid-1960s, plastic model kits had become more plentiful and varied, with increased level of detail. Typically, the kits often had opening hoods A model car, or toy car, is a miniature representation of an automobile. The kit building hobby became popular through the 1950s, while the collecting of miniatures by adults started to gain momentum around 1970. Because many miniature vehicles were originally aimed at children as playthings, there is no precise difference between a model car and a toy car, yet the word 'model' implies either assembly required or the accurate rendering of an actual vehicle at smaller scale

The scope of the vehicles involved in the hobby, according to Louis Heilbroner Hertz author...

Model figure Kits of this size take a A model figure is a scale model representing a human, monster or other creature. These kits include motorized vehicles and stand alone figures. ever before. Figure model kits can be as large as 1:16 scale. Human figures may be either a generic figure of a type (such as "World War II Luftwaffe pilot"), a historical personage (such as "King Henry VIII"), or a fictional character (such as "Conan") 9c2be5be66

Local clubs organise regular meetings, typically once a month for members to meet up, show off their latest models, discuss the hobby and work on ongoing projects. Many also organise their own annual shows and invite fellow clubs to display alongside traders, and together, these shows make up a busy calendar of events throughout each year. The UK has the most developed club network, with organisations covering virtually the whole country. Elsewhere,... 9c2be5be66

Academy Plastic Model Academy has developed and supplied over 500 products to more than 60 countries worldwide, and since 1989, Academy has won several Modell des Jahres awards for its product quality. manufacturers plastic model kits, radio controlled cars, battery- and solar-powered educational models, sailboat models, acrylic and enamel model paints, airsoft Academy Plastic Model Co. , Ltd. It holds three headquarters: in Seoul, Korea; Gelsenkirchen, Germany; and Rosario, Cavite, Philippines. Academy manufacturers plastic model kits, radio controlled cars, battery- and solar-powered educational models, sailboat models, acrylic and enamel model paints, airsoft guns, and various modelling tools and supplies. It is headquartered in Uijeongbu-Si, Gyeonggi-do, Korea and was established on September 1, 1969. (Korean: 아카데미플라스틱) is a Korean plastic model, chemical, and toy company 9c2be5be66

Model figures are sold both as kits for enthusiast to construct and paint and as pre-built, pre-painted collectable figurines. Model kits may be made in plastic (usually polystyrene), polyurethane resin, or metal (including white metal); collectables are usually made of plastic, porcelain, or (rarely) bronze. 9c2be5be66

Scale model Models built to the same scale as the prototype are called mockups. Scale models are generally smaller than large prototypes such as vehicles, buildings, or people; but may be larger than small prototypes such as

anatomical structures or subatomic particles. Wars kits in 1:72, and this range is supplemented by resin kits from Fantastic Plastic. Although the British scale for 0 gauge was first used for model cars A scale model is a physical model that is geometrically similar to an object (known as the prototype) 9c2be5be66

Model prototypes include all types of... 9c2be5be66
