As an orthographic concept, the hyphen is a single entity. In character encoding for use with computers, it is represented in Unicode by any of several characters. These include the dual-use hyphen-minus, the soft hyphen, the nonbreaking hyphen, and an unambiguous form known familiarly as the "Unicode hyphen", shown at the top of the infobox on this page. The character most often used to represent a hyphen (and the one produced by the key...

Gothic language Wikipedia, the free encyclopedia For a list of words relating to Gothic language, see the Gothic language category of words in Wiktionary, the free dictionary Gothic is an extinct East Germanic language that was spoken by the Goths. It is known primarily from the Codex Argenteus, a 6th-century copy of a 4th-century Bible translation, and is the only East Germanic language with a

sizeable text corpus. All others, including Burgundian and Vandalic, are known, if at all, only from proper names that survived in historical accounts, and from loanwords in other, mainly Romance, languages

Chinese characters Characters are created according to several principles. For example, the phonetic dictionary entry for Chinese characters are logographs used to write the Chinese languages and others from regions historically influenced by Chinese culture. In spoken Korean, there are many Sino-Korean words that are homophones with identical hangul spellings. Over a documented history spanning more than three millennia, the function, style, and means of writing characters have changed greatly. Unlike letters in alphabets that reflect the sounds of speech, Chinese characters generally represent morphemes, the units of meaning in a language. Of the four independently invented writing systems accepted by scholars, they represent the only one that has remained in continuous use. Writing all of the frequently used vocabulary in a language requires roughly 2000–3000 characters; as of 2024, nearly 100,000 have been identified and included in The Unicode Standard
