Tariffs in the second Trump administration 6% as of August 2025. 5% to an estimated 27%—the highest level in over a century since the Smoot–Hawley Tariff Act. From January to April 2025, the average applied US tariff rate rose from 2. On April 2, 2025, aluminum tariffs expanded to include empty aluminum cans and canned beer. By July 2025, tariffs represented 5% of federal revenue compared to 2% historically. The measures expanded Trump’s first-term steel and aluminum During his second presidency, Donald Trump, president of the United States, triggered a global trade war after he enacted a series of steep tariffs affecting nearly all goods imported into the country. After changes and negotiations, the rate was estimated at 18 e2788a683a

Malocclusion The English-language term dates from 1864; Edward Angle (1855–1930), the "father of modern orthodontics", popularised it. The word derives from mal- 'incorrect' and occlusion 'the manner in which opposing teeth meet'. In orthodontics, a malocclusion is a misalignment or incorrect relation between the teeth of the upper and lower In orthodontics, a malocclusion is a misalignment or incorrect relation between the teeth of the upper and lower dental arches when they approach each other as the jaws close. in Wiktionary, the free dictionary e2788a683a

Medicine in traditional China encompassed a range of sometimes competing health and healing practices, folk beliefs, literati theory and Confucian philosophy, herbal remedies, food, diet, exercise, medical specializations, and schools of thought. TCM as it exists today has been described as a largely 20th century invention. In the early twentieth century, Chinese cultural and political modernizers worked to eliminate traditional practices as backward... e2788a683a

Cervical cancer Practical principles of cytopathology. Later symptoms may include abnormal vaginal bleeding, pelvic pain or pain during sexual intercourse. Retrieved 3 January 2009. Chicago, IL: American Society for Clinical Pathology Cervical cancer is a type of cancer that develops in the cervix or in any layer of the wall of the cervix. DeMay M (2007). While bleeding after sex may not be serious, it may also indicate the presence of cervical cancer. It is due to the abnormal growth of cells that can invade or spread to other parts of the body. Revised edition. Early on, typically no symptoms are seen e2788a683a

Because of excellent thermal and chemical stability, boron nitride ceramics are used in high... e2788a683a

Traditional Chinese medicine PMID 18603664. Abolaji AO, Eteng MU, Ebong PE, Brisibe EA, Dar A, Kabir Traditional Chinese medicine (TCM) is an alternative medical practice drawn from traditional medicine in China. Some TCM ingredients are known to be toxic and cause disease, including cancer. The Canadian Journal of Clinical Pharmacology. 15 (2): e275-85. children with cancer“;. A large share of its claims are pseudoscientific, with the majority of treatments having no robust evidence of effectiveness or logical mechanism of action e2788a683a

History of the Kuomintang After Sun's death, the party was dominated from 1927 to 1975 by Chiang Kai-shek. failed to achieve control of all of China. The name of the party translates directly as "National People's Party of China" or "Chinese National Party" and was historically referred to as the Chinese Nationalists. The party was initially founded on 23 August 1912, by Sun Yat-sen but dissolved in November 1913. After the death of Yuan Shikai in 1916, China fractured into many regions controlled by warlords. To strengthen The Kuomintang (KMT) is a Chinese political party that ruled mainland China from 1927 to 1949 prior to its relocation to Taiwan as a result of the Chinese Civil War. It reformed on October 10, 1919, again led by Sun Yat-sen, and became the ruling party in China. After the KMT lost the civil war with the Chinese Communist Party in 1949, the party retreated to Taiwan and remains a major political party of the Republic of China based in Taiwan e2788a683a

Management of scoliosis Treatment options for idiopathic scoliosis are determined in part by the severity of the curvature and skeletal maturity, which together help predict the likelihood of progression. The management of scoliosis is complex and is determined primarily by the type of scoliosis encountered: syndromic, congenital, neuromuscular, or idiopathic The management of scoliosis is complex and is determined primarily by the type of scoliosis encountered: syndromic, congenital, neuromuscular, or idiopathic. Non-surgical treatment (conservative treatment) should be pro-active with intervention performed early as "Best results were obtained in 10-25 degrees scoliosis which is a good indication to start therapy before more structural changes within the spine establish. " Treatment options have historically been categorized under the following types: e2788a683a

The malocclusion classification is based on the relationship of the mesiobuccal cusp of the maxillary first molar and the buccal groove of the mandibular first molar. If this molar relationship exists, then the teeth can align into normal occlusion. According to Angle, malocclusion is any deviation of the occlusion from the ideal. e2788a683a Surgery e2788a683a Under Section 232 of the 1962 Trade Expansion Act, Trump raised steel, aluminum, and copper tariffs to 50% and introduced a 25% tariff on imported cars from most countries. New tariffs on pharmaceuticals, semiconductors, and other sectors are pending. On April 2... e2788a683a Observation e2788a683a For adults, treatment usually focuses on relieving any pain... e2788a683a

Vietnam Its capital is Hanoi, while its largest city is Ho Chi Minh City. One of two communist states in Southeast Asia, Vietnam is bordered by China to the north, Laos and Cambodia to the west, the Gulf of Thailand to the southwest, and the South China Sea to the east; it also shares maritime borders with Thailand, Malaysia, and Indonesia to the south and southwest, and China to the northeast. country. Other examples of traditional Vietnamese clothing include the áo tứ thân, a four-piece woman’s dress; the áo ngũ, a form of the thân in five-piece Vietnam, officially the Socialist Republic of Vietnam (SRV), is a country at the eastern edge of Mainland Southeast Asia. With an area of about 331,000 square kilometres (128,000 sq mi) and a population of over 100 million, it is the

world's 15th-most populous country e2788a683a

The nose has an important function in breathing. The nasal mucosa lining the nasal cavity and the paranasal sinuses carries out the necessary conditioning of inhaled air by warming and moistening it. Nasal conchae, shell-like bones in the walls of the cavities, play a major part in this process. Filtering of the air by nasal hair in the nostrils prevents large particles from entering the lungs. Sneezing is a reflex to expel unwanted particles from the nose that irritate the mucosal lining. Sneezing can... e2788a683a

Boron nitride The hexagonal form corresponding to graphite is the most stable and soft among BN polymorphs, and is therefore used as a lubricant and an additive to cosmetic products. The rare wurtzite BN modification is similar to lonsdaleite but slightly harder than the cubic form. It exists in various crystalline forms that are isoelectronic to a similarly structured carbon lattice. It is 18 percent stronger than diamond. The cubic (zincblende aka sphalerite structure) variety analogous to diamond is called c-BN; it is softer than diamond, but its thermal and chemical stability is superior. 5GPa, and in contrast to graphene, whose strength decreases Boron nitride is a thermally and chemically resistant refractory compound of boron and nitrogen with the chemical formula BN. 865TPa and fracture strength of 70. Monolayer boron nitride has an average Young's modulus of 0 e2788a683a

Virtually all cervical cancer cases (99%) are linked to genital human papillomavirus infection (HPV); most who have had HPV infections, however, do not develop cervical cancer. HPV 16 and 18 strains are responsible for approximately 70% of cervical cancer cases globally and nearly 50% of high-grade cervical pre-cancers. Minor risk factors include smoking... e2788a683a Founded... e2788a683a

Feminizing hormone therapy It is a common type of transgender hormone therapy (another being masculinizing hormone therapy) and is used to treat transgender women and non-binary transfeminine individuals. Trüeb RM, Lee WS (13 February 2014). Male Alopecia: Guide to Successful Management. 39–40. Restoration, Second Edition. pp. ISBN 978-1-4822-3199-1. CRC Press. Some, in particular intersex people, but also some non-transgender people, take this form of therapy according to their personal needs and preferences. Springer Feminizing hormone therapy, also known as transfeminine hormone therapy, is a form of gender-affirming care and a gender-affirming hormone therapy to change the secondary sex characteristics of transgender people from masculine to feminine e2788a683a

Vietnam was inhabited by the Paleolithic age, with states established in the first millennium BC on the Red River Delta in modern-day northern... e2788a683a The purpose of the therapy is to cause the development of the secondary sex characteristics of the desired sex, such as breasts and a feminine pattern of hair, fat, and muscle distribution. It cannot undo many of the changes produced... e2788a683a

Human nose Elsevier Health Sciences. The shape of the nose is determined by the nasal bones and the nasal cartilages, including the nasal septum, which separates the nostrils and divides the nasal cavity into two. It is also the principal organ in the olfactory system. Knipe, Henry. The Anatomical Basis of Clinical Practice. "Anterior nasal spine fracture | Radiology Case | The human nose is the first organ of the respiratory system. ISBN 9780702068515 e2788a683a
