

Venture Opportunity Screening Guide

Abionic has developed the abioSCOPE, a point-of-care diagnostic platform using its patented nanofluidic technology. The abioSCOPE is implemented in intensive care units and emergency departments to enable early identification of sepsis using a proprietary biomarker, Pancreatic Stone Protein (PSP). Secreted mainly by the pancreas and stomach, PSP rises rapidly in the blood in case of sepsis development and up to 72 hours before today's standard of care. Thus, this is a good and sensitive warning signal to guide doctors in their decision to start antibiotic treatment. Besides the diagnostic value of PSP for sepsis, its availability at the bedside and the availability...

The studio tour has been open for several decades, but it was renamed Warner Bros. Studio Tours to provide a more uniform identity following the success of Warner Bros. Studio Tour London - The Making of Harry Potter at Warner Bros. Studios Leavesden. Previously, it was known as the Warner Bros. Studios VIP Tour. There are three types of Warner Bros. Studio tours: (1) first tour - they used to show the studio to friends and special guests, which was delivered by employees; (2) public tour - after encountering financial difficulties in 1972,... 164123795d The Apache Kid Wilderness lies just south of the Withington Wilderness, which also straddles the San Mateo Mountains. The Apache Kid is also surrounded by 84,527 total acres of Inventoried Roadless Area (IRA) with the San Jose IRA (16,957 acres) to the south and the Apache Kid Contiguous IRA (67,570 acres) to the... 164123795d It is the last season to feature Samantha Reynolds, Chris Lortie, and Jake Roseman as the voices of George Lundgren and Timmy and Tommy Tibble, respectively. 164123795d TV Guide Magazine has a license to use the TV Guide name and distinctive red and white logo in print publications only; it is prohibited from using the branding or logo online. While the TV Guide trademark and other intellectual property is owned by Fandom, Inc., the TV Guide name and

editorial content from the magazine are licensed by Fandom... 164123795d Historically, drugs were discovered by identifying the active ingredient from traditional remedies or by serendipitous discovery, as with penicillin. More recently, chemical libraries of synthetic small molecules, natural products, or extracts were screened in intact cells or whole organisms to identify substances that had a desirable therapeutic effect in a process known as classical pharmacology. After sequencing of the human genome allowed rapid cloning and synthesis of large quantities of purified proteins, it has become common practice to use high-throughput screening of large compound libraries against isolated biological targets which are hypothesized... 164123795d

Hazmat diving Besides the ordinary hazards of the underwater environment and the special Hazmat diving is underwater diving in a known hazardous materials environment. encapsulation level, post dive decontamination, and health monitoring and screening. The environment may be contaminated by hazardous materials, the diving medium may be inherently a hazardous material, or the environment in which the diving medium is situated may include hazardous materials with a significant risk of exposure to these materials to members of the diving team.

Special precautions, equipment and procedures are associated with hazmat diving so that the risk can be reduced to an acceptable level. These are based on preventing contact of the hazardous materials with the divers and other personnel, generally by encapsulating the affected personnel in personal protective equipment (PPE) appropriate to the hazard, and by effective decontamination after contact between the PPE and the hazardous
