Cadillac SRX additions include Xenon Blue exterior color and ebony interior. Also, Bluetooth hands-free technology became standard on all trims and a heated steering wheel. The Cadillac SRX is a mid-size luxury SUV and compact luxury crossover SUV manufactured and marketed by Cadillac over two generations: the first generation as a five-door, three-row,

seven-passenger CUV (2003–2009), and the second generation as a five-door, two-row, five-passenger CUV (2010–2016) – the latter became Cadillac's best selling model in the United States e7e70de4fd

Wireless Other examples of applications of radio wireless technology include GPS units, garage door openers, wireless computer mice, keyboards and headsets, headphones, radio receivers, satellite. With radio waves, intended distances can be short, such as a few meters for Bluetooth, or as far as millions of kilometers for deep-space radio communications. radio waves, intended

distances can be short, such as a few meters for Bluetooth, or as far as millions of kilometers for deep-space radio communications. Wireless communication (or just wireless, when the context allows) is the transfer of information (telecommunication) between two or more points without the use of an electrical conductor, optical fiber or other continuous guided medium for the transfer. The most common wireless technologies use radio waves. It encompasses various types of fixed, mobile, and portable applications, including two-way radios, cellular telephones, and wireless networking e7e70de4fd
