General relativity Series of lectures on General Relativity given in
2006 at the Institut Henri Poincaré (introductory/advanced). The
relation is specified by the Einstein field equations, a system of
second-order partial differential equations. In particular, the
curvature of spacetime is directly related to the energy, momentum and
stress of whatever is present, including matter and radiation. General
Relativity Tutorials by John Baez General relativity, also known as the
general theory of relativity, and as Einstein's theory of gravity, is
the geometric theory of gravitation published by Albert Einstein in 1915
and is the accepted description of gravitation in modern physics.
General relativity generalizes special relativity and refines Newton's
law of universal gravitation, providing a unified description of gravity
as a geometric property of space and time, or four-dimensional spacetime

Artificial intelligence Burke, Edmund K. It is a field of research in
computer science that develops and studies methods and software that
enable machines to perceive their environment and use learning and
intelligence to take actions that maximize their chances of achieving
defined goals. Search Methodologies: Introductory Tutorials in
Optimization and Decision Support Techniques.). Springer Science
Artificial intelligence (AI) is the capability of computational systems
to perform tasks typically associated with human intelligence, such as
learning, reasoning, problem-solving, perception, and decision-making. ;
