Other processes... afb855a926

Oxygen therapy Oxygen therapy is often useful in chronic hypoxemia caused by conditions such as severe COPD or cystic fibrosis. Oxygen therapy, also referred to as supplemental oxygen, is the use of oxygen as medical treatment. Supplemental oxygen can also refer to the use of oxygen Oxygen therapy, also referred to as supplemental oxygen, is the use of oxygen as medical treatment. It can also be given through bypassing the airway, such as in ECMO therapy. Oxygen can be delivered via nasal cannula, face mask, or endotracheal intubation at normal atmospheric pressure, or in a hyperbaric chamber. Acute indications for therapy include hypoxemia (low blood oxygen levels), carbon monoxide toxicity and cluster headache. Supplemental oxygen can also refer to the use of oxygen enriched air at altitude. It may also be prophylactically given to maintain blood oxygen levels during the induction of anesthesia afb855a926

Orthomolecular medicine Treatment for disease, according to this view, involves attempts to correct "imbalances or deficiencies based on individual biochemistry" by use of substances such as vitamins, minerals, amino acids, trace elements and fatty acids. The concept builds on the idea of an optimal nutritional environment in the body and suggests that diseases reflect deficiencies in this environment. It is rejected by evidence-based medicine. It has been described Orthomolecular medicine is a form of alternative medicine that claims to maintain human health through nutritional supplementation. The notions behind orthomolecular medicine are not supported by sound medical evidence, and the therapy is not effective for chronic disease prevention; even the validity of calling the orthomolecular approach a form of medicine has been questioned. consensus holds that the broad claims of efficacy advanced by advocates of orthomolecular medicine are not adequately tested as drug therapies afb855a926

Criticism of pseudoscience, generally by the scientific community or skeptical organizations, involves critiques of the logical, methodological, or rhetorical bases of the topic in question. Though some of the listed topics continue to be investigated scientifically, others were only subject to scientific research in the past and today are considered refuted, but resurrected in a pseudoscientific... afb855a926

Naturopathy " The Daily Beast. natural therapies". The ethics of naturopathy have been called into question by medical professionals and its practice has been characterized as quackery. Archived from the original Naturopathy, or naturopathic medicine, is a form of alternative medicine. Science-Based Medicine. The ideology and methods of naturopathy are based on vitalism and folk medicine rather than evidence-based medicine, although practitioners may use techniques supported by evidence. "Trump Vitamins Were Fortified With B. Difficult to generalize, these treatments range from the pseudoscientific and thoroughly discredited, like homeopathy, to the widely accepted, like certain forms of psychotherapy. S. Haglage A, Mak T (May 25, 2016). A wide array of practices branded as "natural", "non-invasive", or promoting "self-healing" are employed by its practitioners, who are known as naturopaths afb855a926

Essential oil ISBN 978-0-89281-743-6. (1999). Essential oils are also known as volatile oils, ethereal oils, aetheroleum, or simply as the oil of the plant from which they were extracted, such as oil of clove. An essential oil is essential in the sense that it contains the essence of the plant's fragrance—the characteristic fragrance of the plant from which it is derived. Sellar, Wanda (2001). Advanced Aromatherapy: The Science of Essential Oil Therapy. Healing Arts Press. The Directory of Essential An essential oil is a concentrated hydrophobic liquid containing volatile (easily evaporated at normal temperatures) chemical compounds from plants. The term "essential" used here does not mean required or usable by the human body, as with the terms essential amino acid or essential fatty acid, which are so called because they are nutritionally required by a living organism afb855a926

Naturopathic practitioners commonly encourage alternative treatments that... afb855a926 Many chiropractors (often known informally as chiro), especially those in the field's early history, have proposed that mechanical disorders affect general health, and that regular manipulation of the spine (spinal adjustment) improves general health. A chiropractor... afb855a926

List of unproven and disproven cancer treatments In many cases, there is scientific evidence that the alleged treatments are not effective, and in some cases, may even be harmful. Unlike accepted cancer treatments, treatments lacking in evidence of efficacy are generally ignored or avoided by the medical community and are often pseudoscientific. have been shown to be ineffective. Aromatherapy – the use of fragrant substances, such as essential oils, in the belief that smelling them will positively This is a non-exhaustive list of alternative treatments that have been promoted to treat or prevent cancer in humans but which lack scientific and medical evidence of effectiveness. Many alternative cancer treatments are considered disproven because they have been investigated with clinical trials and have been shown to be ineffective afb855a926

The use of intravenous ascorbic acid as a proposed cancer treatment or co-treatment has been a controversial topic since the emergence of misleading data in the 1970s. afb855a926

Chiropractic The main chiropractic treatment technique involves manual therapy but may also include exercises and health Chiropractic () is a form of alternative medicine concerned with the diagnosis, treatment and prevention of mechanical disorders of the musculoskeletal system, especially of the spine. musculoskeletal system, especially of the spine. The main chiropractic treatment technique involves manual therapy but may also include exercises and health and lifestyle counseling. Chiropractic is well established in the United States, Canada, and Australia, along with other manual-therapy professions such as osteopathy and physical therapy. Most who seek chiropractic care do so for low back pain afb855a926

Creation science It is often presented without overt faith-based language, but instead relies on reinterpreting scientific results to argue that various myths in the Book of Genesis and other select biblical passages are scientifically valid. Creationists also claim they can disprove or reexplain a variety of scientific facts, theories and paradigms of geology, cosmology, biological evolution, archaeology, history, and linguistics. The most commonly advanced ideas of creation science include Creation science or scientific creationism is a pseudoscientific form of Young Earth creationism which claims to offer scientific arguments for certain literalist and inerrantist interpretations of the Bible. The most commonly advanced ideas of creation science include special creation based on the Genesis creation narrative and flood geology based on the Genesis flood narrative. myths in the Book of Genesis and other select biblical passages are scientifically valid afb855a926

Intravenous ascorbic acid The efficacy of intravenous ascorbic acid therapy came under scrutiny of the medical and science community, following the numerous high-profile Intravenous Ascorbic Acid or PAA, pharmacologic ascorbic acid (also known as vitamin C or L-ascorbic acid), is a process that delivers soluble ascorbic acid directly into the bloodstream. angina pectoris. It is not approved for use to treat any medical condition afb855a926

Alternative cancer treatments "Aromatherapy With Essential Oils (PDQ®)-Patient Version". Concerns have been raised about the safety of some purported treatments, and some have been found unsafe in clinical trials. PMID 26281028. Most alternative cancer treatments do not have high-quality evidence supporting their use and many have been described as fundamentally pseudoscientific. These include special diets and exercises, chemicals, herbs, devices, and manual procedures. Despite this, many untested and disproven treatments are used around the world. 3948-58. doi:10. 1002/cncr. 9 March Alternative cancer treatment describes any cancer treatment or practice that is not part of the conventional standard of cancer care. National Cancer Institute. 29630. PMC 4635055 afb855a926

List of topics characterized as pseudoscience These characterizations were made in the context of educating the public about questionable or potentially fraudulent or dangerous claims and practices, efforts to define the nature of science, or humorous parodies of poor scientific reasoning. Detailed discussion of these topics may be found on their main pages. Aromatherapists, people who specialize in the practice of aromatherapy, utilize blends of supposedly therapeutic essential oils that can be used as topical application This is a list of topics that have been characterized as pseudoscience by academics or researchers afb855a926

Oxygen is required for normal cellular metabolism. However,... afb855a926
