Gender disparity in computing University Wire. The believed need for more diversity and an equal gender gap has led to public policy debates regarding gender equality. Many organizations have sought to create initiatives to bring more women into the field of computing. (2017, March 13). Originally, computing was seen as a female occupation. As the field evolved, the demographics changed, and the gender gap shifted from female dominated to male dominated. Gender disparities in engineering and computing science at SFU and its effects on female students. Grier, David Alan (2013) Gender disparity in computing concerns the disparity between the number of men in the field of computing in relation to the lack of women in the field cbf72a7b4e

Grade inflation However, higher average grades in themselves do not prove grade inflation. provincial exam. This change brought SFU into line Grade inflation (also known as grading leniency) is the general awarding of higher grades for the same quality of work over time, which devalues grades. Previously, students were required to pass 4 provincial exams, including English 12, in order to apply. For this to be grade inflation, it is necessary to demonstrate that the quality of work does not deserve the high grade cbf72a7b4e

History of virtual learning environments in the 1990s management system for universities, was developed at Simon Fraser University (SFU) in British Columbia, Canada. A design paper Virtual-U Development Plan: In the history of virtual learning environments, the 1990s was a time of growth, primarily due to the advent of the affordable computer and of the Internet cbf72a7b4e

Bell's father, grandfather, and brother had all been associated with work on elocution and speech, and both his mother and wife were deaf, profoundly

influencing Bell's life's work. His research on hearing and speech further led him to experiment with hearing devices, which eventually culminated in his being awarded the first U.S. patent for the telephone, on March 7, 1876. Bell considered his invention an intrusion on his real work as a scientist and refused to have a telephone in his study. cbf72a7b4e
