Sharia prohibits *riba*, or usury, generally defined as interest paid on all loans of money (although some Muslims dispute whether there is a consensus that interest is equivalent to *riba*). Investment in businesses that provide goods or services considered contrary to Islamic principles (e.g. pork or alcohol) is also haram ("sinful and prohibited"). 83964de64f Mutual funds are often classified by their principal investments: money market funds, bond or fixed income funds, stock or equity funds, or hybrid funds. Funds may also be categorized as index funds, which are passively managed funds that track the performance of an index, such as a stock market index or bond market index, or actively managed funds, which seek to outperform stock market indices but generally charge higher fees. The primary structures of mutual... 83964de64f Technically, a merger is the legal consolidation of two business entities into one, whereas an acquisition occurs when one entity takes ownership of another entity's share capital, equity interests or assets. From a legal and financial point of view, both mergers and acquisitions generally result in the consolidation of assets and liabilities under one entity... 83964de64f Real options are most valuable when uncertainty is high; management has significant flexibility to change the course of the project in a favorable direction and is willing to exercise the options. 83964de64f In general, socially responsible investors encourage corporate practices that they believe promote environmental stewardship, consumer protection, human rights, and racial or gender diversity. Some SRIs avoid investing in businesses perceived to have negative social effects... 83964de64f

Sustainable finance It is sometimes used interchangeably with Environmental, Social & Governance (ESG) investing. Real options valuation rational pricing, practitioners adopt the "fiction" that the real option and the underlying project are both traded: the so called, Marketed Asset Disclaimer Real options valuation, also often termed real options analysis, (ROV or ROA) applies option valuation techniques to capital budgeting decisions. For example, real options valuation could examine the opportunity to invest in the expansion of a firm's factory and the alternative option to sell the factory. A real option itself, is the right—but not the obligation—to undertake certain business initiatives, such as deferring, abandoning, expanding, staging, or contracting a capital investment project 83964de64f

Financial risk management reactive: guided by economic forecasts, a diversified fund could, allocation-strategy dependent (tactical, dynamic, or strategic) rebalance its asset allocation Financial risk management is the practice of protecting economic value in a firm by managing exposure to financial risk - principally credit risk and market risk, with more specific variants as listed aside - as well as some aspects of operational risk. See Finance § Risk management for an overview. As for risk

management more generally, financial risk management requires identifying the sources of risk, measuring these, and crafting plans to mitigate them 83964de64f

Valuations can be done for assets (for example, investments in marketable securities such as companies' shares and related rights, business enterprises, or intangible assets such as patents, data and trademarks) 83964de64f It has two main areas of focus: asset pricing and corporate finance; the first being the perspective of providers of capital, i.e. investors, and the second of users of capital. 83964de64f Financial risk management as a "science" can be said to have been born with modern portfolio theory, particularly as initiated by Professor Harry Markowitz in 1952 with his article, "Portfolio Selection"; see Mathematical finance § Risk and portfolio management: the P world. 83964de64f The discipline can be qualitative and quantitative; as a specialization... 83964de64f It thus provides the theoretical underpinning for much of finance. 83964de64f Impact investing can be considered a subset of SRI that is generally more proactive and focused on the conscious creation of social or environmental impact through investment. Eco-investing (or green investing) is SRI with a focus on environmentalism. 83964de64f A key idea is that sustainable finance allows the financial system to connect with the economy and its populations by financing its agents in seeking a growth objective. The long-standing concept was promoted with the adoption of the Paris Climate Agreement, which stipulates that parties must make "finance flows consistent with a pathway... 83964de64f
