In historical perspective, telecommunication terminology has evolved with time. The term telephone exchange is often used synonymously with central office, a Bell System term. A central office is defined as the telephone switch controlling connections for one or more central office prefixes. However, it also often denotes the building used to house the inside plant equipment for multiple... 84c9ab9f9d

Telephone exchange Alcatel-Lucent inherited three of the world's most iconic digital switching systems : Alcatel E10, 1000-S12, and the Western Electric 5ESS. The term "central office" can also refer to a central location for fiber optic equipment for a fiber internet provider. It facilitates the establishment of communication circuits, enabling telephone calls between subscribers.
