She has won numerous awards and grants for her research, served on numerous boards, served as an editor for numerous finance journals, and chaired the dissertations of numerous students e17cd12e41

Business ethics refers to contemporary organizational standards, principles, sets of values, and norms that govern the actions and behavior of individuals in a business organization. Business ethics has two dimensions: normative business ethics and descriptive business ethics. As a corporate practice and a career specialization, the field is primarily normative. Academics attempting to understand business behavior employ descriptive methods. The range and quantity of business ethical issues reflect the interaction of profit-maximizing behavior with non-economic concerns.
